The Sun-flower river expedition, the last hope for resching the rear of Vicksburg, has been beaten back, while of two lrou-clads that tried to run the batteries opposite Young's Point, one was runk outright, with all on board, and the other disabled. Doubtless these vessels were sent through to reinforce Admiral Farragut, whose position cannot be pleasant with his one effective wooden vessel in hostile waters and surrounded by Rebel rams and batteries. The news which has reached this city from New Orleans confirms the statement we have repeatedly made, in the teeth of Washington official advises to the contrary, that the Rebel account of the Port Hudson affair was substantally correct, and our own accounts utterly untrustworthy

In and MEMORANDUM BOOKS. publications are indispensally necessary. In order to supply what it is believed is a wide-felt want, the undersigned have determined to issue a series of "Anti-Abolition Tructs," to issue a series of "Anti-Acolition Tracts," embracing a course discussion of current political issues, in such a chesp and popular form, and at such a merely nominal price for large quantities, as ought to secure for them a very extensive circulation. Two numbers of other Tracts have already been issued. No. 1 gives a critical analysis of the real causes of our present deplorable difficulties, and shows how, and how only, the Colon can be restored. No. 2 is a brief history of the Results of Emancipation, showing its writched and miserable failure, and that Negro Freedoms is simply a tax on White Labor. The facts in relation to the real condition of the Freed Negroes in Hayti, Jamaica, etc., have their brief carefully suppressed by the abolition papers, but they ought to be laid before the public at once, so that the evilg which now afflict Mexico, Hayti, and all countries where the Negro-equilizing doctrines have been tried, may be awrited from our country forever.
