of this renowned manure pro

At thy instance I was induced to try a small quantity of a fertilizer prepared by the above Company, in the Spring of 1869, and was so well satisfied with its effects on corn and notators, that I used it on my wheat in the Fall following, and also induced several of my neighbors to use everal tons. I put no other manure on for potatore, and herer had a dimantre, except a scale sprinking of the same manure, and the result, so far, is that it is the best wheat i have seen this Spring, now heading, and other wheat six to twelve inches aigh; and, as a general thing hin the section of country where I reside, wheat looks unusually backward, and prospect of a short crop. Thave wheat in the same field, that the ground Whann's. I have called the attention of the neighboring farmen to see the wheat, and, without an everytion, they say it is the best they have seen.

I am now using Whann's Baw Rone Super Phosphate as the only manner for my corn and potatoes. I used it on an acre of oats, stubble ground, with no additional manure of each to see any other fertilizer this fall for wheat. I think all that is needed, is for farmers to see the edit six, to induce them to use it; and, further, I have been to see the manufactory, and an perfectly satisfied that the public may rely upon being supplied with a genuinearticle.
