TESTIMONIALS.

DEAR Size it gives no great pleasure to comply with your requirt in "tiving in my experience" of the Lister Bone. I have been using it for some years and I consider it as and wheat, and find that it acts finely. On my wheat crep, after pleasuring the ground. I harrow the Bane in, I thin dill into wheat without any more fertilizing, and I find on comparing notes why my brother-farmers that I make as much wheat as trey do by using Guano, and, considering the putter. I have now the best crep alwheat that I have had for years, and used but the Lister Bone. I shall use it again in the fall.

Yours respectibility.

Mr. Wm. E. Shaw, of Colesville, writes: "I have been using Lister Bone at the rate of 260 pounds to the acre, with 100 pounds of Peruvian funan with unverying success for 2 years on all crops. Mr. wheat has been followed after each seeding by a good set of gress. If consider it an excellent fertilizer, and recommend it highly."

Mr. Perry Sullivan advices: "I have used Lister Bone, one-fourth Peruvian Guano, with great success on wheat and grass, and recom-mend it very highly."

Hon. Montgomery Blair writes: "I have applied the Lister Bone Dust bought of you to an eern, rie, and petito croje, and it has proved a most effective between it is general-

reved a most electric the regularist as one of the lest, if not the best, and most economical fertil zer in use.

Mr. John Joy, Manager for Geo. W. Biggs, E-q. advises: "I have used Lister Bone on all kinds of crops for several years, and know

Mr. M. J. Weller advises : "In the fall of

Mr. M. J. Weler advises: "In the latt of 1800 I used Ico pounds of Guano and 200 Its of Lister Bone jer acre on wheat, and bad a fine growth of straw; but as with all my neighbors, owing to the reason, not much wheat. I used it on timothy with success. I used the same unature last fall and raised a fine wheat crop, and have a fine set of graza."

Mr. Sam'l S. Cashell, writes: "I used Liser Lone and one-third Peruving Guano, mixed

Mr. Sam'l S. Cashell, writes: "I need Lister Done and one-third Peruvian Guano, mixed last fall, at the rate of 220 jouands to the acre, and lave never had better results from any other fertilizers. This mixture cost me \$11 per ton less than my neighbors pay lor fertilizers. I had a fine opportunity of testing it on one of my fields, which was very poor, and not capable of producing more than two barries of corn to the acre, I used this mixture at the same rate, and the wheat crop from this field was nearly equal to that from my best land. My neighbors think mice the best crop of wheat in the neighborhood, and I think it equal to any in the county. I have also a fine act of grass following the wheat. I have used it on petators also with sucress—I recommend it highly."

Mr. John II. Garraway, of Darnestown, writes: "I have used Lister Bone for several years, applying it with one-third Peruvian Guano at the rate of 310 jounds per acre, on all kinds of crops, and I have made as good crops as my neighbors who have used other fettilizers as a cost of ten or filtern dellars more per ton. I raised last, fall a large and uniform crop of wheat, and have now a fine set of grass. I shall continue to use it on all crops."

Mr. A. C. P. Shocmaker advises : I have need

Mr. A. C. P. Shormsker advises: I have used the Lister Bone and one-third Peruvian Guszpfor three years past to good effect, and perfer it to all other tertilizers. I had this season a fine wheat crop and an excellent set of grass to follow. I have now the best field of clover in any past of my neighborhood. I have used it also on Potatoes with one-third Guano, and on corn alone with as great success as I could have anticipated. I shall continue to use it to the exclusion of all other manures.

Mr. N. C. Dickerson advices: " Nothing I

have ever used in the way of fertilizers has given me more satisfaction than the Lister Bone, used with one-third Peruvian Guano, I have used it several seasons on all crops."

Bev. Jas. S. H. Henderson writes: "I was much pleased with Lister Bone and Persvian Guano that I bought from you last fall. In a field that I sowed with this mixture I used a few bags of • • • • through the centre and there was marked difference in favor of Bone and Peruvian.

Mr. John L. DuFlef writes: "I have used Lister Bone with one-third Peruvian Guano and Plaster for the past 3 years, on all kieds of seeding, with great success, raising groot crops and resilising after wheat, fine sets of grast. I have saved from \$10 to \$15 per ton in the cost of my ferillizies by using this mixrurs; have had good crops, and improved my land. I recommend it highly, and shall continue the use of it."

Mr. Americus Dawson; of Dawsonvilla, a visee; "I used Lister Bone with one-fourth-ravian Quano on my wheat trop lest 10, cost of seventeen dollars per the less 10, neighbors paid for the furtilizers there I made country a most creplent of
