EXCELSIOR is in fine dry powder, prepared expressly for drilling, and can be applied in any quantity per acre, however small, and it is the opinion of many close calculating Farmers, after TWELVE years experience in testing it side by side with other ... forty acres, that an application of 100 pounds of Excelsior is equal to 200 to 250 pounds of any other fertilizer or Guano offered for sale, therefore is fully one hundred to two hundred per cent cheaper.

☞ The very best evidence we can offer of the value of our Excelsior as a crop grower and fertilizer, is the fact of its being imitated and counterfeited in this and other cities.
