Ayer's Hair Vigor,

For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, bealthy, and effectual for preserving the hair. Faded or gray hair is soon restored to its original color, with the gloss and freshness of youth. Thin hair is thick-

ened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous.

Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous, and injurious to the hair, the Vigor can only benefit but not harm it. If wanted

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambrie, and yet lasts long on the hair, giving it a rich, gloesy lustre and a grateful perfume.

and Consumption.

Trobably never before in the whole history of medicane, has any thing won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to care the variation of the races of men it has risen higher and higher in their estimation, as it has become better known and it known as a reliable protector squainst them. While adapted to midder forms of disease and to young claidren, it is at the same time the most effectual remeity that can be given for inciplent consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of Cressy, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughe, all should be provided with this antidote for them.

Although settled Commungation is should be carried, and the consulting the life that the consulting the life that the Cherry Feeters is. So consulted in this the Cherry Feeters is. So consulted in the weener received renord nave leen completely unred, and the patient restored to sound health by the Cherry Pectorni. MESSES. G. T. DUNGOF & CO., Gentlemen: As requested, I cheerfully give you my opinion of Busey's Excelsior Guano. I have used it every year since it was first manufactured, and have always been satisfied with its results. Last fall I used it in comparison with other fertilizers and although the bithers cost more money, I made as good wheat with the Excelsior as with the other articles: I believe the attacked it is red last. Excessor as with the other articles: I believe the standard is kept up, as what I need last fall was as good as any I ever used. Respectfully, June 23d, 1871. H. B, PENN.

Mr. Sam'l S. Cashell, wijtes: "I need Lites Hone and one-third Perovian Ganao, mired last fall, at the rate of 320 pounds to the acre, and have sever had better results from any other ferthizers. This mixtgirs cost me \$11 per ton less than mangighors pay for fertilizers. I had a fine deportunity of testing it on one of my fields; which was very poor, and not cajeble of producing more than two barrels of corn to the acre, I used this mixture at the same rate, and the wheat from my best land. My neighbors think mine the best crop for wheat in the antiphotohood, and I think it equal to asy fin the tousty. I have also a fine set of grass following the wheat. I have used it on potance also with success—I recummend it highly."

Mr. John H. Garsaway, of Darnestown, writes; "I have used Lister Bone for everain years, applying it with one-third Perurian Gueno at the rate of 340 younds per acre, on all kinds of crops, and I have made as good rerogical my neighbors who have used other fertilizers at a cost of ten or fifteen dollars more per than I rated last fall a large and uniform ctup of wheat, and have now a fine act of grass. I shall continue to use it on all crops."
