

John A. Baker's Column

Lister's BONE DUST Price \$40 Per Ton.

IT IS RICH in Ammonia and Bone Phosphate of Lime. When used with one-third Peruvian Guano or Guano, the combination costs from 10 to 12 dollars per ton less than Manipulated Guano or Super-Phosphate.

A NO. ONE PERUVIAN GUANO, Price \$75 Per Ton.

A No. 1 Peruvian Guano, Price \$67 PER TON.

My supplies of Peruvian Guano and Guano are received direct from the Peruvian Agent from the best Cargoes, as determined by analysis.

TURNER'S EXCELSIOR. Price \$80 per Ton.

THIS ARTICLE is so well and favorably known that comment is hardly necessary. Its long continued popularity is the result of its uniformity, which has been rigidly maintained for many years.

TURNER'S HALF-AND-HALF, Price \$80 per Ton.

Manufacturers of Excelsior, and of this at the same price.

LISTER'S BONE DUST. TESTIMONIALS.

POOLSVILLE, May 13, 1871. DEAR SIR: Your favor of the 3d. instant is received. You wish to learn of me the effect of Lister Bone and Peruvian Guano on my wheat crop of last fall. I used these articles in equal parts, at rate of 215 pounds per acre, and seeded in about 135 acres, and used this mixture on my entire crop. I never had a crop that promised so well. The crop was sown on stubble and corn land; I think the Lister Bone a very superior article, and I don't think I can say too much in its praise, and it must become very popular. I think it is the very best article mixed with Peruvian Guano for wheat, and at ten to twelve dollars per ton, it is cheaper than any other fertilizer. I think it is fairly set forth to the farmers that they will manipulate their own fertilizers, and feel assured that they will get a better article, and thereby save ten to twelve dollars per ton.

FOSTER OAK, July 13, 1871. DEAR SIR: It gives me great pleasure to comply with your request in "Living in my experience" of the Lister Bone. I have been using it for some years and I consider it the best article. I have used it on corn, oats and wheat, and find that it acts finely. On my wheat crop, after ploughing the ground, I sowed the Bone in, I then drilled or harrowed the Bone in, and I find on comparing notes with my brother-farmers that I make as much wheat as they do by using Guano, and considering the outlay, I think I do a little better. I have now the best crop of wheat that I have had for years, and used but the Lister Bone. I shall use it again in the fall. Yours respectfully, W. C. DIAMOND.

Mr. A. J. Caswell writes: "I used Lister Bone mixed with one-half Turner's Excelsior in the fall of 1869, and made as good a crop of wheat as any of my neighbors, and I had a better article of grass to follow. Last fall I used Lister Bone with one-third Peruvian Guano, at rate of 300 pounds to the acre, adding one barrel of plaster, and I raised 1 1/2 bushels of wheat per acre, and my neighbor, who had a more excellent set of grass."

Mr. Franklin Grooms writes: "I have used Lister Bone, referred to your note few days since and find it acts admirably on both wheat and grass."

Mr. Samuel Dixon, of Dawsonville, writes: "I am much pleased with application of the mixture of Lister Bone and Peruvian Guano in its application. I have secured a fine wheat crop, and I consider it an excellent article, and shall continue to use it."

Mr. Wm. E. Shaw, of Coleridge, writes: "I have been using Lister Bone at the rate of 200 pounds to the acre, with 100 pounds of Peruvian Guano with increasing success for 3 years on all crops. My wheat has been followed after each seeding by a good set of grass. I consider it an excellent fertilizer, and recommend it highly."

Mr. Perry Sullivan writes: "I have used Lister Bone, one-fourth Peruvian Guano, with great success on wheat and grass, and recommend it very highly."

Hon. Montgomery Blair writes: "I have applied the Lister Bone but bought of you to my corn, rye, and potato crops, and it has proved a most effective fertilizer; it is generally regarded by my neighbors as one of the best, if not the best, and most economical fertilizers in use."

John W. Bell, of Belleville, Prince George's County, writes: "I used Lister Bone and Peruvian Guano last fall in the proportion of 1/2 Lister Bone and 1/2 Peruvian Guano to the acre, and I have never had better results from any other fertilizers. This mixture cost me \$10 per ton less than my neighbors pay for fertilizer. I had a fine opportunity of testing it on one of my fields, which was very poor, and not capable of producing more than two bushels of corn to the acre. I used this mixture at the same rate, and the wheat crop from this field was nearly equal to that from my best land. My neighbors think mine the best crop of wheat in the neighborhood, and I think it equal to any in the county. I have also a fine set of grass following the wheat. I have used it on potatoes also with success—I recommend it highly."

Mr. John H. Gassaway, of Darlington, writes: "I have used Lister Bone for several years, applying it with one-third Peruvian Guano at the rate of 300 pounds per acre, on all kinds of crops, and I have made as good crops as my neighbors who have used other fertilizers at a cost of ten or fifteen dollars more per ton. I raised last fall a large and uniform crop of wheat, and have now a set of grass. I shall continue to use it on all crops."

Mr. A. C. P. Shoemaker writes: "I have used the Lister Bone and one-third Peruvian Guano for three years past to good effect, and prefer it to all other fertilizers. I had this season a fine wheat crop and an excellent set of grass to follow. I have now the best field of clover on any part of my neighborhood. I have used it also on Potatoes with one-third Guano, and on corn alone with as great success as I could have anticipated. I shall continue to use it to the exclusion of all other manures."

Mr. N. C. Dickerson writes: "Nothing I have ever used in the way of fertilizer has given me more satisfaction than the Lister Bone, used with one-third Peruvian Guano. I have used it several seasons on all crops."

Rev. Jas. S. Henderson writes: "I was much pleased with Lister Bone and Peruvian Guano that I bought from you last fall. In a field that I sowed with this mixture I used few bags of fertilizer, and through the rent and there was marked difference in favor of Bone and Guano."

Mr. John L. DeFries writes: "I have used Lister Bone with one-third Peruvian Guano and Plaster for the last 3 years, on all kinds of seeding, with great success, raising good crops and resulting after wheat, fine sets of grass. I have saved from \$10 to \$15 per ton in the cost of my fertilizers by using this mixture. I have had good crops, and improved my land. I recommend it highly, and shall continue the use of it."

Mr. America Dawson, of Dawsonville, writes: "I used Lister Bone with one-fourth Peruvian Guano on my wheat crop last fall at a cost of seventeen dollars per ton less than my neighbors paid for the fertilizers they used, and I made every acre a most excellent crop of wheat, and am much pleased with the article."

IT PAYS!

USE CLARK'S

AMMONIATED

DISSOLVED

BONE!!!

The Cheapest,

Purest,

and Best Article

NOW OFFERED.

It has been used extensively in this section, and all who have tried it are unequalled in its praise.

IT IMPROVES THE LAND.

Read the following: I have used Clark's, and consider it an excellent article. I shall use it in future. It pays. WM. HUDDLESON, Tennantstown, D. C.

I have used, with the greatest success Clark's Dissolved Bone, and pronounce it equal if not superior to any higher priced Guano in the market. R. A. SHECKELL, Rockville, Md.

It pays in the Crop, and its benefits to the Soil are permanent. Farmers will find it to their interest to use it. Sold in original packages. No rebalancing.

QUALITY GUARANTEED.

DUNLOP & CO.'S COLUMN.

GREAT REDUCTION IN PRICES!!

WE ARE PREPARED TO SELL FERTILIZERS at \$10 per ton lower than last Fall. We only ask that the Farmers will call and see our stock of Fertilizers before purchasing elsewhere, feeling assured that we can furnish them with the very best articles at the lowest prices.

DUSEY'S EXCELSIOR GUANO

We are sole Agents for the sale of this article in Georgetown, and refer buyers to every Farmer in the county who used it on the crop of Wheat just reaped, for its superiority.

Harris, Montgomery Co., Md. August 5th, 1871. Messrs. G. T. Dunlop & Co.: I used "Dusey's Excelsior Guano" and Peruvian Guano on the same field; the same quantity per acre applied. The difference, if any, both in quality and quantity of Wheat, was in favor of the Excelsior. W. LAIRD, Jr.

PERUVIAN GUANO.

This Guano is the best imported into the United States by the Peruvian Agent. The cargo of which we bought contains 131 per cent of Ammonia, being 1 per cent more than any other cargo received by the Agent this year.

PURE DISSOLVED BONE.

This article has been pronounced by every Farmer who has seen it, to be the best Dissolved Bone they have ever seen. To those who do their own mixing of fertilizers, we call their especial attention to this article.

BUSEY'S AMMONIATED BONE.

This Fertilizer has been sold largely during the past season, and from its universally good results, has established a fine reputation. It is something cheaper in price than EXCELSIOR.

BONE DUST,

Manufactured in the District of Columbia, and GUARANTEED PURE.

Ground Plaster, IN BURLS, BAGS OR LOOSE.

AGENTS FOR THE Wagoner Wheat Drill

for the District of Columbia. We have them with and without Gum Springs.

BICKFORD & HUFFMAN GRAIN DRILLS,

WHANN'S RAW BONE SUPER PHOSPHATE.

THE GREAT FERTILIZER FOR ALL CROPS!

The unparalleled success of this renowned manure proves it to be

The BEST FERTILIZER

IN THE MARKET.

17 YEARS OF EXPERIENCE

have demonstrated that it is not only a

Great Crop Producer,

but that nothing equals it as a

RENOVATOR OF WORN-OUT SOILS.

IT IS COMPOSED OF

Pure Raw Bone, Guano, Sulphuric Acid and Salts of Potash and Soda; AND IS WARRANTED FREE FROM ADULTERATION.

Whann's Raw Bone Super Phosphate is used by many of the best Farmers and Planters in all sections of the country. We refer to all who have used it.

HARDY SPRING, MONTGOMERY CO., MD., 5th Month 10th, 1870.

My friend, E. G. Edwards, Agent for Whann, Walsh & Co., Baltimore, Md.: At the instance I was induced to try a small quantity of a fertilizer prepared by the above Company, in the Spring of 1869, and was so well satisfied with its effects on corn and potatoes, that I used it on my wheat in the Fall following, and also induced several of my neighbors to use several tons. I put no other manure on for potatoes, and I never had a better crop. I put the same ground, (which was thin,) in wheat last Fall, with an additional manure, except a small sprinkling of the same manure, and the result, so far, is that it is the best wheat I have ever seen in the Spring, now heading, and other wheat six to twelve inches high, and, as a general thing, in the section of country where I reside, wheat looks unusually backward, and prospects of a short crop. I have wheat in the same field, that the ground was manured from both Yard, Bone and Peruvian Guano, and it is very much behind Whann's. I have called the attention of the neighboring farmers to see a wheat, and without an exception, they say it is the best they have seen.

I am now using Whann's Raw Bone Super Phosphate as the only manure for my corn and potatoes. I used it on an acre of oats, stubble ground, with an additional manure of any kind, and it now looks better than three-fourths of the wheat I have seen. I do not expect to use any other fertilizer this fall for wheat. I think all that is needed, is for farmers to see the effects, to induce them to use it; and, further, I have been to see the manufacturer, and am perfectly satisfied that the public may rely upon being supplied with a genuine article. Respectfully, your friend, WM. H. STAUBER.

For Corn, Potatoes, Wheat, Oats, and all other Crops, WHANN'S RAW BONE SUPER PHOSPHATE IS UNEQUALLED.

WHANN'S RAW BONE SUPER PHOSPHATE is made only by Messrs. WATSON, WHANN & Co., Wilmington, Delaware. It is put up in strong bags of 200 lbs. each, and THE STANDARD GUARANTEED.

If you do not care to order a large quantity, for a test, buy a single bag. PAMPHLETS, containing many letters from Farmers, together with directions for use, mailed free to all.

FOR SALE BY R. M. JOHNSON, 220 Louisiana Avenue, WASHINGTON, D. C. may 12-71

1871. WHEAT SEEDING!

"EXCELSIOR."

COMPOSED OF 700 pounds of No. 1 Soluble Phosphate of Lime, (bones dissolved in Sulphuric Acid,) Potash and Soda, forming the most concentrated, universal and durable fertilizer ever offered to the farmer—combining all the assimilating properties of Peruvian Guano, and the ever durable fertilizing qualities of Ground Bones. EXCELSIOR is in fine dry powder, prepared expressly for drilling, and can be applied in any quantity per acre, however small, and it is the opinion of many close calculating Farmers, after TWELVE years experience in testing it side by side with other popular fertilizers, that an application of 100 pounds of Excelsior is equal to 200 to 300 pounds of any other fertilizer or Guano offered for sale, therefore is fully one hundred to two hundred per cent cheaper. The very best evidence we can offer of the value of our Excelsior as a crop grower and fertilizer, is the fact of its being imitated and counterfeited in this and other cities. Farmers should see that every Bag is branded as above, the analysis and our name in Red Letters—all others are counterfeits. PRICE \$60 Per Ton.
