BONE DUST.

THE subscriber finding it impossible to supply the demand for his BONE DUST, under the old mode of manufacturing, has, since last fall, applied

The most Improved Machinery

to his Factory, enabling him to make from four to six tons per day, and much finer than any heretofore made by him; 50 pounds per acre can be applied with a drill. His dust is made from the

RAW BONE,

and *WARRANTED PURE.* His Bone Dust has stood the test of the Farmers of this and Montgomery county for the last eleven years, and has found it to be the cheapest and one of the most reliable Fertilizers used, not only giving quick returns, but a quick and permanent improver to the soil. At the low price sold, every farmer can afford to use it. The large quantity now on hand ready for use, and facilities for manufacturing, will enable him to fill all orders from Farmers. The price this fall is reduced to

$45 Per Ton,

IN SACKS. Parties furnishing their own Sacks, $43 per ton. But one price for large or small quantities.

SANDY SPRING, MONTGOMERY Co., Md., 5th Month 16th, 1870.

My friend, E. G. EDWARDS, *Agent for Walton, Whann & Co., Baltimore, Md.:*

At thy instance I was induced to try a small quantity of a fertilizer prepared by the above Company, in the Spring of 1869, and was so well satisfied with its effects on corn and potatoes, that I used it on my wheat in the Fall following, and also induced several of my neighbors to use several tons. I put no other manure on for potatoes, and I never had a better crop. I put the same ground, (which was thin,) in wheat last Fall, with no additional manure, except a *small* sprinkling of the same manure, and the result, so far, is that it is the best wheat I have seen this Spring, now heading, and other wheat six to twelve inches high; and as a general thing, in the section of country where I reside, wheat looks unusually backward, and prospect of a short crop. I have wheat in the same field, that the ground was manured from Barn Yard, Bone and Peruvian Guano, and it is very much behind Whann's. I have called the attention of the neighboring farmers to see the wheat, and, without an exception, they say it is the best they have seen.

I am now using Whann's Raw Bone Super Phosphate as the only manure for my corn and potatoes. I used it on an acre of oats, stubble ground, with no additional manure of any kind, and it now looks better than three-fourths of the wheat I have seen. I do not expect to use any other fertilizer this fall for wheat. I think all that is needed, is for farmers to see the effects, to induce them to use it; and, further, I have been to see the manufactory, and am perfectly satisfied that the public may rely upon being supplied with a genuine article.

Respectfully, thy friend, WM. H. STABLER.
