BONE DUST. THE subscriber finding it impossible to supply the demand for his BONE PUST, under the old mode of manufacturing, has,

since last fall, applied The most improved Machinery

to his Factory, enabling him to make from four to six tons per day, and much finer than any heretofore made by him; 50 pounds per acre can be applied with a drill. His dust is made from the

RAW BONE, and WARRANTED PURE. His Bone Dust has stood the test of the Farmers of this and Montgomery county for the lest eleren years, and has found it to be the cheapest and one of the most reliable Fertilizers used, not only giving quick returns, but a quick and permanent improver to the soil. At the fow price sold, every farmer can afford to use it. The large quantity now on hand ready for use, and facilities for manufacturing, will cnable him to fill all orders from Farmers. The price this fall is reduced to this fall is reduced to

845 Por Ton, IN SACKS. Parties furnishing their own Sacks, \$43 per ton. But one price for large or small quantities.

7-30 Northern Pacific Railroad Bonds.

Principal and Interest payable in Gold. FO THESE BONDS are now offered by

JAY COOKE & Co., as a perfectly reliable and profitable investment, and they strongly recommend the congresion of U. S. 5-20's, which have been called in, (or probably will be soon called in,) for redemption, into this safe and profitable investment.

The holder of a \$1000 Fire-Twenty Bond, who exchanges it now for Northern Pacific's, thereby increases his principal by 14 per cent receiving \$1140 in Northern Pacific's for \$100 in Fire Twenties. He also permanently increases the yearly interest income on his investment more than 38 per cent, or from \$60, in gold, to \$83 22, in gold.

Sanny Spring Montgowery Co. Mrs. 5th Month 10th, 1870. My friend, E. G. Edwards, Agent for Walton, Whomn of Co., Balaissore, Md.:

At thy instance I was induced to try a small quantity of affertilizer prepared by the above Company, in the Spring of 1803, and was so well ratisfied with its effects on corn and potatoes, that I used it on my wheat in the Fall following, and also induced several of my neighbors to use several tons. I put no other manure on for potatoes, and I never had a better crop. I put the same ground, (which was thin, i) in wheat last Fall, with no additional manure, except a smill sprinkling of the same manure, and the result, so far, is that it is the best wheat I have seen this Spring, now, heading, and other wheat six to twelve inclus high; and, as a gherral thing; in the section of country where I reside, wheat looks unusually backward, and prospect of a short crop. I have wheat in the same field, that the ground was manured from Barn Yard, Bone and Peturian Guano, and it is very much belief which the section of the neighboring farmers to see the wheat, and, without an exception, they say it is the best the lare seen.

I am now using Whann's Raw Bone Super Phosphate as the only manure for my corn and potators. I used it on an acre of outs, stubble ground, with no additional nanure of any kind, and it now looks better than three-fourths of the wheat I have seen. I do not expect to use any other fertilizer this fail for wheat. I think all that is needed, is for farmers My friend, E. G. EDWARDS, Agent for Walton, Whann of Co., Bellimore, Md.:

ect to use any other ferfilizer this fail for wheat. I think all that is needed, is for farmers o see the effects, to induce them to use it: and, further, I have been to see the manufactory, nd am perfectly parished that the public may rely upon being supplied with a genninearticle Respectfully, the friend.
