

The Perplexed Housekeeper.

I wish I had a dozen pairs of hands this very minute; I'd soon put all these things to rights—

Useful Hints.

Garment Waivers.—The following extract from the Scientific Press is worthy the attention of farmers:

"Grinding buggies and wagons is of more importance than some people imagine. Many a wheel is ruined by being too plentifully oiled."

Kickin' Hooves.—The Country Gentleman has the following on the subject of kicking horses:

"Equality," says a French writer, "means a desire to be equal to your superior, and superior to your equal."

Mr. Taylor, of Lafayette, thought he would show his horse's tail, and a manner that he will desire for the time, if not cured."

A Kansas paper's cow obituary says:—"There is not a farm wagon in the county that she has not stolen something out of; not a gate in town that she has not opened; and the stores that have been thrown at her would make five miles of turpentine."

WHANN'S RAW BONE SUPER PHOSPHATE.

THE GREAT FERTILIZER FOR ALL CROPS!

The unparalleled success of this renowned manure proves it to be

The BEST FERTILIZER IN THE MARKET.

17 YEARS OF EXPERIENCE have demonstrated that it is not only a

Great Crop Producer, but that nothing equals it as a

RENOVATOR OF WORN-OUT SOILS.

IT IS COMPOSED OF Pure Raw Bone, Guano, Sulphuric Acid and Salts of Potash and Soda; AND IS WARRANTED FREE FROM ADULTERATION.

Whann's Raw Bone Super Phosphate is used by many of the best Farmers and Planters in all sections of the country.

My friend, E. G. Rowland, Agent for Whann's Raw Bone Super Phosphate, writes me as follows:

At the instance I was induced to try a small quantity of a fertilizer prepared by the above Company, in the Spring of 1869, and was so well satisfied with its effects on corn and potatoes, that I used it on my wheat in the Fall following, and also induced several of my neighbors to use several tons. I put no other manure on my potatoes, and I never had a better crop of either than I had in the same field, (which was this year) in wheat last Fall, with no additional manure, except a small sprinkling of the same manure, and the result, so far, is that it is the best wheat I have seen this Spring, now heading, and other wheat six to twelve inches high, and, as a general thing, in the section of country where I reside, wheat looks unusually backward, and prospect of a short crop. I have wheat in the same field, that the ground was manured from Barn Yard, Bone and Peruvian Guano, and it is very much behind Whann's. I have called the attention of the neighboring farmers to see the wheat, and, without an exception, they say it is the best they have seen.

I am now using Whann's Raw Bone Super Phosphate as the only manure for my corn and potatoes. I used it on an acre of oats, stable ground, with no additional manure of any kind, and it now looks better than three-fourths of the wheat I have seen. I do not expect to use any other fertilizer this fall for wheat. I think all that is needed, is for farmers to see the effects, to induce them to use it, and, further, I have been to see the manufactory, and am perfectly satisfied that the public may rely upon being supplied with a genuine article. Respectfully, thy friend, W. M. H. STABLER.

For Corn, Potatoes, Wheat, Oats, and all other Crops, WHANN'S RAW BONE SUPER PHOSPHATE IS UNEQUALLED.
