Our Darling. Over the bars of a dainty cage She bent with a shirering cry and mosn Todaing her white arms to and fro-. Tagthe door was ajar, and her bird had flow

Class to my bosom I held the child, I hold her a tale and sang her a song; But the sorrowful wind and my sorrowful heart Echoed the mouning the whole day long. And ah ! from her feverish lige that night There broke like the cry of the lonesome sea

"Birdie, my birdle, come back to me !" Over the snow of dainty cot I beat with a shivering cry and moan— For ah! by someholy's hand somewhere

A pitiful waifing, that haunts me yet :

A door was ajar, and my bird had flown. Deep in my besom I hid my pain; I smile for my love, and I sing him a song But the tenderest tlasue of beart and brain Are broken with waiting the whole day long

And at night, at night, from my hungry lips Pallid and cold as the dead may be-A wall floats up to the shore unseen : Birdle, my birdle, come back to me !"

A Poet's description is finely illustrated i these lines : I stood upon the ocean's bring shore,

And with a fragile reed I wrote Upon the sand—"Agnes, I love thee!" The mad waves rolled by and blotted out The fair impression.

Frail weed! Cruel waves! Treacherous sand I'll trust ye no more: But with giant hand I'll pluck From Norway's frozen shore Her tallest pine, and dip its top Into the crater of Vesuvius, And upon the high burnished Heavens

"Agnes! I love thee!" And I would like to see any

Dog-goned wave wash that out.

Uşeful Hints.

MCCK ON SANDY SOIL .- In some portions the Southern States, where they are slow i adopting new methods of culture or hints lead ing to experiments, they are beginning to find out that muck hauled upon sandy soils tends to increase their productiveners. This is no new thing. We recommended it, as did con respondents, five-and-twenty years ago, and pointed out instances that had been attended upon light sandy soils, and intermingled, has creasing its crops fully fifty per cent. Where clay or muck is as convenient of transportation as manure, there is no question but its application as here suggested would prove of th most decided advantange. Even in gardens when the soil has become exhausted b continued cultivation, a dressing of clay i far better than a coat of the best manure .-

Germantown Telegraph. SELECTING CALVES FOR MILETER .- A Write in one of our exchanges says: The points that indicate the good cow are discernible in the calf, and why not? This may stagger some dairymen, but that is just what we wish to do This wholesale slaughtering of calves in the spring is wrong. A calf will show a good milk-mirror, as well as a cow, and a rich cream-colored udder as well as a cow. And these points make up the cow every time. Let reed be what it may, this is our experience in the matter. A calf that is worth ter or fifteen dollars should not be killed for its mere hide, for the lack of judgment in select-

GALLS AND SORES .- A correspondent of the Rural World writes : "I will give you an in fallible remedy for walls and sores of all kinds on horses, including what is generally called acratches :- Two ounces extract of lead, two ounces spirits of wine, one oz. sal ammoniac, half oz. white vitriol, four oz. soft water mir, dissolve and wash-three or four times

SALT AND ASSES FOR HORSES .- The Turf, Field and Parm says those keeping horses should twice a week throw in a handful of salt and ashes. Horses relish this and it will en their hair soft and fine. It will beered bots, colic, etc. A little ground sulphur mixed with salt and ashes, and given once in two o three weeks is also beneficial. All domesti animals will be thus benefited.

Wit and Humor.

"No cards," as the pious father said when he gave his son a lashing for playing eachre. Why is the road of the transgressors s hard? Because it is so much traveled.

The young lady with speaking eyes has made them quite hourse by over-using them. Men who frequent drinking saloons are

mest of their time in a tight place. To become respectable—say " yes" to every

other man's opinions, and have none of you A man died suddenly from intemperance

and a Western jury found that deceased came to his death by drinking "between drinks." A draver, who sells his cattle by live weight, always gives them as much water as they will

drink before driving them on to the scales. "That," he says, "is what I understand by watering stock." A Landon merchant advertised for a clerk

who could "bear confinement." He received an answer from one who had been seven year in jail.

A man from the country whose wife had sloped and carried off the feather-bed, was in search of them; not that he cared anything about his wife, "but the feathers, mid he, "them's worth a dollar a pound."

A schoolmistress was trying to teach a class of four and five year olds the names of the day of the week. After practicing them a while, the asked a five year old girl, "What day is the ?" "Washing day," was the quick reply.

la Chicago a number of persons are sick from as they say -- vaccination. The doctors reply that if the people will drink immense quantities of liquer, they have no right to lay the blame on vaccination. It is never the champage, but always the last oyster, that dis-

Mrs. Partington entered the office of the probate Jadge (ralled "civilian") and inquired in ber blandest tone; "Are you the civil villaist' " " Do you wish to insuit me, madam I" said the judge. "Yes," replied the amiable old lady; "my brother died detected, and left three insidel children, and I'm to be their executioner; so I want to insult the ciril villain about it."

WOOL WANTED! june 2—tfn

GREAT REDUCTION John A. Baker's Column. DUNLOP & CO.'S COLUMN.

IN THE PRICE OF

FERTILIZERS.

FARMERS OF MONTGOMERY are ad-T vised that I have greatly reduced the price of Fertilizers for the FALL TRADE, and they will do well not to buy until they know my prices
I have, I am confident, the best stock now on hand ever offered in this market.

I have the following articles:

BUSEY'S EXCELSIOR GUANO BUSEY'S

AMMONIATED DISSOLVED BONES, **CROUND BONE**

DISSOLVED BONES,

For those who desire to mix their fertilizers. I have Dissolved Bone, ground and dissolved by myself and not bought of irresponsible parties in the northern cities.

For those who want Bone Dust, I have ground green bone made here, the purity of which can be guaranteed.

I challenge comparison. W. G. BUSEY,

GEORGETOWN, D. C.

high standard, I refer to the certificates of some of the leading farmers of the county, here annexed. I have many more. Mm. Buker, Dear Sir: I used some of your's and Turner's Excelsior on my wheat crop last full, both applied in the same manner, and at the same time, and both did well, but your's the better of the two.

That my feetilizers have maintained their

Respectfully, June 12th, 1841. ORATIO CLAGETT. Ma. W. G. Besay, Dear Sir : I have used MR. W. G. BURK, Door SIC: I have used your Excelont for several years satisfactorily, used it last fall on part of my wheat crop and have a good crop, quite as good as where I applied another tertilizer in a much larger quantity per acre. JOHN SAUNDERS.

June 17th, 1871.

REDLAND Montgomery Co., Md. Messas, G. T. Di voor & Co., Gentlemen: As requested, I cheerfully give you my opinion of flusey's Excelsion Guano. I have need ion of flussy's Errelsion Guano. Thave used, it every vent since it was first manufactured, and have always been satisfied with its results. Last fail I used it in comparison with other fertilizes and aftin upt the others cost more money. I made as good wheat with the Errelsion as with the other action. I believe the standard is kept up, as what I used last fall was as good as any I ever used.

Respectfully,

June 23d, 1871. H. B. PENN.

HAVE just received 4 very large Stock of PALL and WINTER GOODS, bought entirely for Cash, and will be sold at the low-cutterly for Cash, and will be sold at the low-quite as good if not better than where Laptage and the company paying customers, comprising in part as fall too. on various crops for about five years, and have found its high standard maintained in every instance. EDWARD M. VEIRS. very instance. July 19th, 1871.

> Georgerown, July 21st, 1871. Grountows, July 21st, 1871.
>
> Mr. Editors: In your paper of June Both proximo, you had a notice of the case of Rosey as Moore and others, which was calculated to, and I am informed has produced faire impression. The facts are simply thise, the case has been twice tried before junes and the state of the case has been twice tried before junes. resulting both times by verdict in my favo which rendicts were set sende upon technical grounds by the Court. The case now stands upon the docket for a third trial.

Respectfully, aug 4-tf W. G. BUSEY.

WHANNS RAW BONE SUPER PHOSPHATE.

THE GREAT FERTILIZER FOR ALL CROPS!

The unparalleled success

AT YEARS OF EXPERIENCE

have demonstrated that it is not only a

VATOR OF WORN-OUT SOILS.

IT IS COMPOSED OF

Salts of Potash and Soda:

Lo Whann's Raw Bone Super Phosphate is used by many

This Guano is the best imported into the United States by the Peruvian Agent. The cargo of which we bought contains 13½ per cent. of Amononia, being ½ per cent. more than any other cargo received by the Agent this year.

PURE DISSOLVED BONE:

This atticle has been pronounced by every Fainner who has seen it, to be the best Dissolved Bone they have ever seen. To those who do their own mixing of fertilizers, we call their especial attention to this article.

Sandy Senino, Monroonzer Co., Mo., 5th Month 10th, 1670.

My friend, E. G. Eowanis, Apeni for Willon, Whann & Co. Bultimore, Md.:

At thy instance I was induced to try a small quantity of a fertilizer prepared by the above Company, in the Spring of 1869, and was so nell satisfied with its effects on corn and potatoes, that I used at on my wheat in the Fall following, and also induced several of my neighbors to use several tons. I put no other manure on for potatoes, and I never had a heter crop. I put the same manure, and the result, so far, is that it is the best who has seen it, to be the best Dissolved Bone they have ever seen. To those who do their own mixing of fertilizers, we and potatoes. I used it on an acre of oats, studied ground, with no additional magure of any kind, and it now looks better than three-fourths of the wheat I have seen. I do not expect to see any other fertilizer the fall for wheat. I think all that is needed, is for farmers to see the effects, to induce them to use it; and, further, I have been to see the manufactory, and am perievely satisfied that the public may rely upon being supplied with a genuinearticle. SANDY Sening, Montgouszy Co., Mo., 5th Month 19th, 1870.

For Corn, Potatoes, Wheat, Oats, and all other Crops,

is made only by Messrs. Watton, Whann & Co., Wilmington, Delaware. It is put up in strong bags of 200 lbs. each, and THE STAND ARD GCARANTEED. If you do not care to order a large quantity, for a test, buy a single bag.
