THESENTINEL Spicy Debate in the House of Repre-

THE EDUCATION SWINDLE.

The House then took up as a special order the bill reported from the Committee on Education and Labor, to setablish an educational quid, and to apply the proceeds of the public lands to the education of the people.

Mr. McHenry (Dem. N. H.) also apposed the bill arguing that Congress poserssed no Constitutional authority to pass such a measure or to legislate upon the general subject of education in the States. He regarded it as opening wedge—a pioneer merely paving the way for a comprehensive system of National education, for a postal telegraph law, and for other kindred legislation—until every right heretofore reguled as being vested in the States will be absorbed by the general government.

Mr. Kerr, (Dem. M.) also opposed the bill and referred to Mr. Hoar's speech in support of it as being unworthy of hum, and as being designed to make a labe charge upon the Democratic party, whose record in connection with education—He characterized that speech as extremely discreditable to Mr. Hoar and unjust towards the Democratic party, whose record in connection with education was illustrious; and glorious. The State of Indiana had to-day the munificent charational fund of about eight and a half millions.

The State of mains and country and a half mallions.

Mr. Hoar, (Rad. Mass.) suggested that that find come from the public lands.

Mr. Hoar (Bad. Mass.) suggested that that find come from the public lands.

Mr. Kerr - By no means.

Mr. Hoar - No, bat ask tong, that is all.

Mr. Kerr stated from what sources the fund we derived —three and a half millions from that he sived by the State, and about four indians from public lands.

Mr. Hoar - Then the greatenan admits that the till is precisely in the time of the Dimogratic policy in the time of the Dimogratic policy, and is interchery in the north parts towards the States of the Limit Be proceeded to discuss the details of the Republican parts towards the States of the Limit Be proceeded to discuss the details of the land to the ball was that of a great assistment of the towards the States of the Limit Be proceeded to discuss the details of the land to the ball was that of a great assistment of the ball was that of a great assistment of the free public is holden of the country. But he was not un favor of that miserable system which did case both races by maning them up in a monour schools. Another objection was that del couse both races by maxing them top; in a name of shoots. Another objection was that proper to depend on world be to transfer the OF ALL KINDS.

respect to downation would be to transfer the legal control of the educational system from the regular Meripung of the people of the State to that of the Congress of the United States. Mr. Bord. Down N. J. also opposed the bill as being a card of the Free Insula. Burran, and a revival of that system of legislation.

Mr. Parker, then N. H. is member of the Committee on Education and Labor, opposed the bill and repelled the application of Mr. Horrmode some waves 170, 50, far. in it reflected upon the Demogratic party. He claimed that that pure had been aways the steered to the latent points had been aways the steered champon of claes from and he referred to the latent wave Jersey on the popula.

Mr. Townsend, Red. Pr. I souther member of the committee, advocated the bill and Zie-

Democratic ticket. (Laughter and appradus on the Republican side.)

Mr. Biggs. The foreigners who have fled from their own countries and come over here are many of them poor and illiterate, and it is a shame for the grotleman from Massachusetts to undertake to cast such a reflection on the foreign population of the country.

Mr. Hoar. It is the consus of the United States that says so, not I.

Mr. Biggs. I will now proceed to read something which I think is refreshing. The gentleman said in his speech the other day, with what perfect hatred, has the Democratic party pursued those undappy. States of the South. How has that party sought to fasten on that beautiful and unfortunate section of the land everything that degraded mankind."

Sir, there is not a man in America to-day, out. the land everything that degraded mankind. Sir, there is not a man in America to-day, out-side of an insane asylum who believes it. The inde of an institute anythm with bedieves it. In the incorable gentleman in his solver momental from so flaughter) would not have gentured to make that statement. We, as Democratis are the friends, not only of the South, but on the North and the East and, the -West. Who was it that send god the Southern people? Who was it that send down epauletted scounderly to the Southern States for the purpose of Who was it that sent down epauletted 'scoundrels to the Southern States for the purpose of persecuting the South? Who is your Governor Bullock? Who is your Governor Bullock? Who is your Governor Bullock? Who was your Governor Scott? And who is your Governor Warmouth? All loyal reoplet Oth, how they loved the South! They loved her while she had greenbacks for them to finger. They served the country and themselves for pay, and then the whole band packed up and ran away—(laughter)—and yet the homorable gentleman says that the Democratic party has pursued the Southern people with relentless hatred. Sir! (addressing Mr. Hoar in the midst of general laughter) go down on

Mr. Bright (Dem. Tenn.) next got the floor and proceeded to reply to Mr. Hoar's state means as to the illiteracy of Tennessee, and he pronounced his statement in that respect to be
