USE

Clark's Ammoniated

DISSOLVED BONE.

It is the Best Paying Article

READ THE FOLLOWING:

I have used Clark's Ammoniated Dissolved Bone on my corn this year, and am much pleased with the result. I have used other higher priced fertilizers, and find Clark's the superior fertilizer for corn. W. H. HILF, Fairfax Co., Va., Aug. 1, 1871.

I have used Clark's Ammoniated Dissolved Bone on other higher priced fertilizers, and consider it the best now manufactured. R. W. MILLER, Fall's Church, Va., Aug. 2, 1871.

Mr. O'NEALE—I used Clark's last year, and am much pleased with it. I put it on some potatoes, leaving one row without any. Where I applied Clark's I got a good yield of the potatoes, but on the row where I used none, I got no potatoes. I consider it a genuine article, and shall use it again. Very respectfully, JOHN FERGUSON, Fall's Church, Va.

I like Clark's Dissolved Bone better than anything I ever used. I used it with several others, and find it the best. I shall never use another as long as I can get it. ROBT. WALKER, Alexandria Co., Va.

I tried Clark's and several others, and find it equal to any. It is a good thing. FAIRFAX CO., VA. ALFRED LEIGH.

I used Clark's on late potatoes last year, and got finer potatoes than where I used Peruvian Guano and Bone. THOS. J. PEACOCK, Fairfax Co., Va.

I have used Clark's alongside of —, and like it very much, and can recommend it as a superior article. I shall use it in future. WM. HULLISON, Wicentown, D. C., Aug. 23, 1871.

I used Clark's on wheat, and like it better than any other. A. H. C. DARNE, Fairfax Co., Aug. 26, 1871.

I have used Clark's Dissolved Bone side of several others, and I think it the best I ever tried on corn. I made some of the finest corn I ever saw with it last year. I intend to use it in future. W. S. OLIVER, Prospect Hill, Fairfax Co., Va. Aug. 23, 1871.

I find Clark's an elegant fertilizer; have used it on corn and wheat, and like it better than any other. A. H. C. DARNE, Fairfax Co., Aug. 26, 1871.

PERUVIAN GUANO,

No. 1

PERUVIAN GUANO,

LISTER'S NEW JERSEY

BONE DUST,

1872. TO TOBACCO PLANTERS 1872.

EXCELSIOR

Containing Ammonia, 6 per cent,
Super Phosphate equivalent
to Bone Phosphate of Lime 67
Potash and Soda - - - 6

THIRTEEN YEARS' EXPERIENCE
the use of our
"EXCELSIOR,"

as a TOBACCO GROWER, has convinced
the most skeptical Planters of Maryland and
Virginia that it has no competitor in the
production of that crop. It is now their unani-
mous opinion that "from the application of
"EXCELSIOR" the crop is heavier and of finer
quality, cures earlier and better, and is not so
liable to suffer from drought as from the use of
"Peruvian Guano."

We refer to every Planter in Maryland
and Virginia who has used "EXCELSIOR" in the
preparation of his crop, and 100 lbs.
of it are equal to from 200 to 300 lbs. of any
other Fertilizer sold.

Uniformity of quality guaranteed by
manufacturers.
PRICE \$60 PER TON.
J. J. TURNER & Co.,
42 Pratt Street, Baltimore, Md.

CAUTION.—The popularity of "Exce-
lsior," as the only reliable substitute for Per-
uvian Guano, has induced unscrupulous par-
ties in this and other cities to use our trade-
mark, "Excelsior," to sell their worthless
compositions. Every bag of genuine "Exce-
lsior" has our name on it in RED LETTERS.
All others are counterfeit.
