Clark's Ammoniated

It is the Best Paying Article In the Market.

I have tried Clark's Dissolved Bone on my corn this year, and am much pleased with the result. I also used a higher priced article, and find Clark's the superior fertilizer for corn. W. H. REID.

I have used Clark's Ammoniated Dissolved Bone beside other higher priced fertilizers, and consider it the best now manufactured.

MR. O'NEALE:—I used Clark's last year, and am much pleased with it. I put it on some potatoes, leaving one row without any. Where I applied Clark's I got a good yield of fine potatoes, but on the row where I used none, I got no potatoes. I consider it a genuine article, and shall use it again.

Very respectfully, JOHN FEGLEY.

Fall's Church, Va.

I like Clark's Dissolved Bone better than anything I ever used. I used it with several others and find it the best. I shall never use anyother as long as I can get it.

I tried Clark's, beside several others, and find it equal to any. It is a good thing.

I used Clark's on late potatoes last year, and got finer potatoes than where I used Peruvian Guano and Bone.

Composed of 800 pounds of No. 1 Peruvian Guano, and 1200 pounds of Soluble Phosphate of Lime, (bones dissolved in Sulphuric Acid,) Potash and Soda,

Forming the most concentrated, universal and durable fertilizer ever offered to the farmer—combining all the stimulating qualities of Peruvian Guano, and the ever durable FERTILIZING PROPERTIES of Bones, in fine dry powder, prepared expressly for drilling, and can be applied in any quantity, however small, per acre; and it is the opinion of many close calculating Farmers, after THIRTEEN years experience in testing it side by side with other popular fertilizers, that an application of 100 pounds of Excelsior is equal to from 200 to 300 pounds of any other fertilizer or guano offered for sale, and therefore is fully 100 to 200 per cent. cheaper.

☞ Look out for imitations and counterfeits. The popularity of Excelsior has induced *unscrupulous* parties in this and other cities to copy our trade mark, and resort to other *dishonorable* means to sell their worthless compounds.
