CERTIFICATE.

The State Inspector of Georgia, says : The State Inspector of Georgia, says:

The recent analysis of Clark's Ammoniated
Dissolved Bone warrants me in pronouncing
it a highly reliable compound for the early
and effective nutrition of crope, with a rufil
cient quantity of ammonia to stimulate, develop and sustain the plant. It contains a
heavy propertion of Soluble Phosphoric Acid
to sustain an ample fruitage. It, therefore,
has an official sanction as a good fertilizer.
