I have used Clark's Ammoniated Dissolved Bone beside other bigber priced fertilizers, and consider it the best now manufac'ured. Pall's Church, Va., Aug. 2, 1871.

MR O'NEALE .- I used Clark's last year and am much pleased with it. I put it on ome potators, leaving one row without any. Where I applied Clark's I got a good yield of ne potatoes, but on the row where I used none, I got no potatoes. I consider it a gen-uine article, and shall use it again. Very respectfully, JOHN FEBREY.

Hike Clark's Dissolved Bone better than anything I ever used. I used it with several thers, and find it the liest. I shall never use anyother as long as I can get it.

CERTIFICATE.

The State Inspector of Georgia, says : The State Inspector of Georgia, says:

The recent analysis of Clark's Ammoniated
Disadved, Bone warrants me in pronouncing
it a highly reliable compound for the early
and effective nutrition of crops, with a sufficlent quantity of ammobila to stimulate, develop and sustain the plant. It contains a
heavy propertion of Soluble Phosphoric Acid
to sustain an amplo fruitage. It, therefore,
has an official sadction as a good fertilizer.
