that Goeras of Austruction embraces the usual English Hearhers, Books keeping, Mathematics, the Natural Sciences, Rhetoric, Ilistory and Literature, Mental and Moral Philosophy, Latin, Greek, French, German, Music (vocal and instrumental), Drawing, Composition, Peumanship &c. Special attention will be given to Rudding, Spelling, Acuthmetic and English Grammar, as consiliuting the ground-work of a liberal education, and the Principal slone, gives instruction in the last two branches, bestowing that care which they demand. Arithmetical and Geometrical Forms are used for illustration. Regarding the University of Virginia as a model of Southern Educational Institutions, the pan of study pursued, will be made to conform to that, as nearly as possible, with such modifications as are necessary in a course for young ladies. The object will be to furnish the advantages of a thorough, practical and accomplished education, and in promote the moral as well as the intellectual advancement of pupilt; and with this in view, the Teachers willsers divised in the state of the street in the state of the street in the street.

And cast our glances backward, It but a step appears. The waters now are deeper, The bottom lost from view, Where ouce the boats were many, They're kattered now, and few. We're floating down the river,

The Discipling will be sufficiently strict and regular to promote the uninterrupted progress of papits. The Principal's familia, with the resident teachers and papits, constitute one household, and thus compose a Hone School. Pupits, always accompanied by some number of the family, attend such places of worship as parents and guardians may desire, nothing of a sections character being introduced in the School. The young lades household with the family are not were may desire, nothing of a sectivitian character being introduced in the School. The young ladies boarding with the family are not permitted to pay visits, or to receive visitors except members of their respective families. They are required to walk every afternoon (the weather permitting) with one of the fractions and are encouraged to take all healthful exercise that is proper, and consistent with duty and discipline. Every care is taken to promote physical culture. The strictest strengthen in paid to the laws of health, and the results have been merked and gratifying. The number of boarding pupils is limited this year, to pit; yet the Principal, who has established this School especially to meet the words of the people of Montgonery County, confidently hopes, in the course of another year, to perfect plans whereby he can accommodate an increased number. A Graduate of the University of Vigninia he has been margaged in teaching since 1860, except

Poetical.

We're floating down the river-

They ball from every clime;

'Tis fraught with hopes and feart,

It has its lights and shadows,

Some cross it in a moment,

Some only cross in years.

We're floating down the river;

At first it seems to wide

That our frail bark can verer

Land on the other side ;

The waters faster flow ;

The trip scems one of pleasure,

We've nothing now to fear,

While our skies are fair and clear

When we're been on it for years:

More lone and sad is found,

As we are homeward bound.

We're floating down the river ;

To launch out from the others.

One comrade less to cheer us,

Its royagers of all ages,

The Fifth Annual Section of the Montgom The FIFTH ARMOAL SERION Of the Montgom y Female lastitute will commence on Mon-ay, September 16th, 1872, and close Jun-pils, 1873, the re-opening of the School being satisfaced from September 2d, on account of the Interruption occasioned by the Fair. The Scholaric Year is divided into two groups of WRINY WARE RESE Commencial.

WEEKS. | THE COURSE Of CHEEKEVITON embraces the

No tempest can beset us We're flusting doen the river ; As further on we go The strough spears more narrow, We're looking out for dangers Our watchword, it is "Onward," As down the stream we glide. We're floating down the river ;

the moral as well as the intellectual advancement of pupilty; and with this in view, the Teachers will ever strive to inioue the minds of those entrasted to their care, with those principles which will secure this end. The great aim will be to teach the pupil to think, to discipline her mind and to expend its powers. The permissions Parcel-Systemsker, by the memory alone is exercised, to the utter neglect of other and higher intellectual fuenities, we entirely somes. As others have before, Oft-times a bout will leure us And strike out for the shore. And then our journey onward,

ses of protracted illness or of death.
