But if the shares should not be all subscribed on the above three first days, then the Commissioners will again open the subscriptions on Monday the 6th day of August next at he aforesaid places and hours in the cay of Barimore, and city of Annapolis, and permitary terson or pers us, bodies corporate of cines wise to subscribe for any number of shares, until the whole number of nine hundred Elizies is completed, and then the commissioners will justile receipts to whom the shares may belong mentioning therein the receipt of 5 dollars, in part of their subscription, which must be paid in cash, on each share, at the time of subscribing; the other payments will be called for by the directors chiven from the stockholders as the bridge expenditures require, agreeably to the terms and conditions expressed in the law.

The Commissioners heg leave to remark, that they have had the road run by Mr. John Bonlding, his attested plat of which is lodged at Mr. Evans's, whereby it will appear, that the dis tance from Mr. Evans's tavern, in the city of Baitimore, to the Ferry landing, at Portland, is 21 miles and 70 perches, from thence across the river is 1 of a mile and 411 perches, and from the foot of the contemplated bridge on the Ann Arundle side of the river, in a streight line to Snowden's bridge, at the Furnace, where it intersects the present Fuleral road, is 163-4 miles and 60 perches, and this over remarkably level, dry, even country - Thus we all be enabled to travel from baltimore to Washington, the Pedein! Cite, in 39 miles, pericles the great superiority of road, whereas the present road is generally estimated at 45 miles.

There ratural advantages, added to a liberal law and diarter of incorporation to this Bridge Company, by the legislature of Maryland, at their ast ression, who viewed it as of the utmost importance to the interest of the city of Baltimore and Arm Arundle county, as well as to the public in general, must assuredly prove a productive fund to the stockholders.

The lamentable state in which the physical art stands at this day with respect to the Venereal Disease, cannot be better described than it is in Dr Bell's Preface to his Treatise. He goes on, and says, " such is the effect of his experience and observation, that further advantages are cally accruing from the labors of indivituals in this disease, as well as in almost ever other Here then is a confession from a candid, worthy and respectable surgeon, four ded on experience and observation,' that ' further advantages are daily accruing from the labors of i dividual.'if so, who can claim so great a portion of praire as Dr. Solomon, whose i bors have been indeta tigable, and who has at a great expence brough the Anti-Impetigines to perrection, and into u niversal use and request?
