This Day Published, BY SAMUEL BUTLER, At the corner of Market and Charles-streets, Price I dollar neatly bound and lettered, Ferdinand & Elmira.

Printed from the or ginal manuscr.pt of an American lady, author of ' Dorval,' Julia and the Baron, and Amelia.

The writer of this instructive and amusing work, has heretofore published the effusions of her pen in New England, and there (where the flights of fancy, as if chilled by the nigid blasts of the north, are not received with that friendly welcome which they experience in the more genial climate of the south and middle states) command d that applause, which genius and fancy never fa'l of producing on those liberal and candid mied who will take the trouble to discrimi-Inate between the or linary day-labor of the common English novelist, who works for a living the same as any other mechanic, and has no other and in view than to bring forth a fashionable piece of goods, that will serve the moment and semmerate himself; and the lady of refined sentiment and correct taste, who writes for the amusement of herself, her friends and the public.

It contains anwards of three hundred pages, is well printed on a new type and fine paper.

Liso, just publisbed as above, INTERESTING ANECDOTES OF THE

conduct of Women, Previous to, and during the French revolution: translated from the French of M. Du Broca, and other modern writers of authenticity.

When it is considered that this work records some of the most shining virtues of humanina. ture, such as constancy, fortitude, courage, affecsion, tenderness, love and patriotism, as well'as superior go d sense and judgment, which have been exhibited by semales, and snews that the Fair S.x, when exigency requires, are by no means infesior in these virtues, and in several of them superior to what in like cases would be expedied from the boasted lords of the creation -it is reasonable to expect, that almost every lady of information wilbe happy in purchasing a book so well calculated to defend the rause of besuty, whan attacked by petulence or arrogance.

The present edition is enlarged by additional selections of about one-third more than the London translation of Du Broca's Anecdotes, and is printed on a line cream colored paper, and still sells at only one half the price of the London

In the press, anti with all convenient speed will be published, the second vol. of the Baltimobre Musical Miscellany, consisting of new and a spproved songs set to music.
