Relief to the Consumptive. Just received direct from the Patentee and Jer Sale Br GEORGE MARIS, DRUGGIST, No. 140, Market-street,

Dr. Cooley's Vegetable Elixir. A remedy far exceeding every other yet used for consumptions, arthmas, spirting of blood, coughs, shortness of breath, and every other species of disease to which that organ of life, the lungs, is perpetually exposed.

It is needless for me to dwell too long on the praises of this medicine; those who use it will immediately be convinced of its superior virtues, in dispelling every distressing symptom in the in dispelling every distressing symptom in the complaints above enumerated: those hedical heats will in a few days be allayed, the night. sweats will disappear, the cough diminish rapidly, and the patients, who previous to the use of this medicine were panting for breath, and fast approaching to dissolution, will find themselves resuscitated in the most unexpected manner.

It is not pretended that this medicine will cuse every disease to which suffering humanity is liable, as is the case with most patent medicines diseases which are as completely opposite as as acid and an alkali, they will assert, are all to b cured by one simple remedy. Such weak impositions have with much propriety brought most patent drugs into disreputs-But the Vegetable Elixir is calculated for one class of discases only, viz; those to which the lungs are exposed, and I need not observe that they termina ate in consumptions., The precursors or har bingers of this hitherto intradable malady, (until the discovery of the Vegetable Elixir) are spitting of blood, pains in the breass and sides, coughs, difficulty in breathing; and a great number of complaints, which slender and dellcats constitutions are so frequently laboring under, which, if attended to immediately on their commencement, will easily be obvicted, and those in the last stages will be much alleviated and many of them effectually cured. Price 7. cents per bottle.
