Dr. MACE'S ANTI-BILIOUS TINCTURE & HEALTH PRESERVING PILLS

TOR reserving health in general, and especially for preventing the diseases of warm climates and warm seasons, such as the chelera morbus, dysenter; or flux and lax, sickness of the stomach and everflow of bile, ague and fever, bilious or yellow fever, liver complaints, bilious pleurisy, bilious head ache, and jaundice or yel- i lowrers of the skin and eyes.

It is in asserted with confidence, and with . out the least fear of a contradiction, by the use of these medicines, that they are the best remedies for caring as well as preventing, bilious com-; inints of all kinds. A detail of many cases might be given to prove this assertion, but the

hoped will be sufficient: E. M. had been afflissed with a bilious complaint six years, so mat every summer he was forced to take large doses of mercury, or else be confined to his bed. By the semedies here reand fever with which he was formerly affected very often has entirely left him.

F.M. was · filited with jaundice or bilious yellowness, and was perfeelly relieved in 10 days

by the same means

G A, had been for a long time subject to jaundice and bilious fever in the highest degree. His face and eyes vers very yellow, and he was remedies recommended by physicians and others, but without any binefit. He wis, however, scon cured by the remedies given in the above

I. T. had been for a long time afflicted with a bilious complaint. He had applied to disserent physicians, and had taken the usual remedies recommended in such cases. He also took a journey to the springs. All, however, were useless. By the same remedies taken by the above mentioned patients he was completely relieved in four days.

M. P. a young lady, was affected for a long time with a bilious yellowness of the skin and whites of the eyes, with other particular complaints, (for which the Tincture is a certain remedy.) She had consulted a physician and had taken many remedies in vain, but was completely relieved by the same medicines as the above. S. P. another young lady, in the same condition, was cured in the same manner.

B. S. had been subject to bilious complaints for a long time, and had taken the medeeines cece. rally recommended in such cases to no purpose, but was restored to health in a short time by the above mentioned remedies.

B. B. was affested with a bilious sever in a violent degree. He had eevere pains in his head, back and timbs, with a sick stomach and yellowness of the skin and eyes, attended with a high fever. He took a tea spoonful of the tindure every hour or half hour until better, and then every two hours, together with the pills; and in a very ic a days was entirely restored to health.

The Anti-Bilious Tincture and Pills have been taken by many in this city with the greatest benent that would be expeded, to whom reserence for further satisfaction may be made if necessary On the Eastern-shore of this state, so far famed for bilious complaints, the reputation of these medicipes is established upon the most solid foundation. The inventor of them has not yet known of a single instance in which they have not been taken with all the advantage which could be expeded. - Every day they are coming more in demand, while their credit is increasing in the same degree. Neither the tineure, nor pills contain any mercury, or any dangerous medicine whatever; they are composed of simples entirely, and are perfectly innocent. These medicines are found, when taken for the preven. tion of summer and fall diseases, to carry off the bile in as gradual manner, as it increases, and thereby hinder its coming to excess, . Then take ken for the cure of bilious diseases, they carry the bile away very speedily, but, without any inconvenience; increase the strength of the stomach and occasion a good appelite, by which the patient is soon restored to health and spirits." The price of the tindure is one dollar by the bottle, and of the Julis half a dollar by the boxt. wholesale purchasers are supplied with both at a dollar, which makes a generous allowance for retailing.
