VENEREAL COMPLAINTS

AS Dr. WARNER'S practice has been very extensive both in public and private, daily experience convinces him of the propriety of his method of removing the venereal disease, in preference to any medicine vendored or known in Baltimore. He has removed the most desperate cases with care and despatch, after the failure of some of the sales physicians both in Europe and America. Complaints of the urinary passages and debility thereof, from various causes and accidents, removed in the shortest possible space of time.

As there are persons from various causes cannot personally apply, it may be necessary to inform them, they may be relieved from a description of their complaint.

Dr. W. warrants a cure in all cases. Masters of vessels and travellers may have their medicine prepared that a safe, effectual and expeditious cure may be effected, without the least restriction in drink or diet.

N. B. Dr. Warner has removed from Bond street, to Chamberland Row, No. 64, below the Marsh-market.

WHEREAS, by a decree of the High Court of Chancery of that part of Great Britain called England, made in a certain cause, wherein in Sophia COUCH is the plaintiff, and Henry CUSTON Adkinson is the defendant, it was referred to John C. Esq. one of the masters of the said Court, to enquire whether CHARLES COUCH named in the will of Charles Couch the Elder, late of C-n-w lane, Smithfield, London, Cordwainer, was living or dead; and, if dead, when he died. The said Charles Couch, then alive, if living, is perpetually, either by himself personally, or by his solicitor, to appear before the said master, at his Chamber in South Hampton Buildings, Chancery lane, London, on or before the sixth day of November, One Thousand Eight Hundred and Four, and prove his identity; or, in default thereof, he will be excluded the benefit of the said decree; but, in case of his death, any person who can give information to the said master as to the time and place of his decease, is requested so to do. It appears that the said Charles Couch formerly lived in Cow Lane as aforesaid; and about the year 1785 went to America where he carried on the business of a shoemaker at Baltimore, and at Havre-de-Grace in the province of Maryland, North America; and is supposed to have died in the Alms House at Baltimore in the month of August, 1796.

TO

Merchants & owners of Vessels

GENERAL: AN Association having been formed by a number of master Ship-Carpenters, under the denomination of 'The Baltimore Shipwrights' for the purpose of executing in the most expeditious and workmanlike manner any commands in the said line of business—they hereby solicit a share of public patronage, and inform that JAMES GORDON, their president, and JAMES WHEEDEN and WILLIAM DRUMMOND, supercargo, on Fell's Point, are prepared to receive all orders which merchants, captains or others may favor them with. They will for the present conduct their business, on the wharf occupied by J. Wheeden, adjoining Mr. J. Holland's wharf, where they will always be provided with spare Spars and other outfit to furnish at the shortest notice and in the most moderate terms.

It is deemed expedient to notice, that all the persons joining this association are masters of their business, and as they intend themselves, promptly to give their personal application in every part of their employments, it is hardly to be supposed that on this score they will claim a preference from those who make it an object to have things done in a masterly manner.

N. B. They have now on hand a sufficient stock of well seasoned stuff for the building of several vessels.

DR. MACE'S

ANTI-BILIOUS TINCTURE & HEALTH PRESERVING PILLS

FOR preserving health in general, and especially for preventing the diseases of warm climates and warm seasons, such as the cholera morbus, dysentery, or flux and laxity, sickness of the stomach and overflow of bile, ague and fever, bilious or yellow fever, liver complaints, bilious pleurisy, bilious head ache, and jaundice or yellowness of the skin and eyes.

It is here asserted with confidence, and without the least fear of contradiction, by the use of these medicines, that they are the best remedies for curing as well as preventing, bilious complaints of all kinds. A great many cases might be given to prove this assertion, but the following, which are taken from real facts, it is hoped will be sufficient:

E. M. had been afflicted with a bilious complaint six years, so that every summer he was forced to take large doses of mercury, or to be confined to his bed. By the remedies here recommended he had been restored to a good state of health during the summer and fall of the year and fever with which he was formerly afflicted very often was entirely left him.

F. M. was afflicted with jaundice or bilious yellowness, and was perfectly relieved in 10 days by the same means.

G. A. had been for a long time subject to jaundice and bilious fever in the highest degree. His face and eyes were very yellow, and he was much swelled in the body. He had tried many remedies recommended by physicians and others, but without any benefit. He was, however, soon cured by the remedies given in the above cases.

L. T. had been for a long time afflicted with a bilious complaint. He had applied to different physicians, and had taken the usual remedies recommended in such cases. He also took a journey to the springs. All, however, were useless. By the same remedies taken by the above mentioned patients he was completely relieved in four days.

M. P. a young lady, was affected for a long time with a bilious yellowness of the skin and whites of the eyes, with other particular complaints, (for which the Tincture is a certain remedy.) She had consulted a physician and had taken many remedies in vain, but was completely relieved by the same medicines as the above.

S. P. another young lady, in the same condition, was cured in the same manner.

B. S. had been subject to bilious complaints for a long time, and had taken the medicines generally recommended in such cases to no purpose, but was restored to health in a short time by the above mentioned remedies.

B. B. was afflicted with a bilious fever in a violent degree. He had severe pains in his head, back and limbs, with a sick stomach and yellowness of the skin and eyes, attended with a high fever. He took a tea-spoonful of the tincture every hour or half hour until better, and then every two hours, together with the pills, and in a very few days was entirely restored to health.

The Anti-Bilious Tincture and Pills have been taken by many in this city with the greatest benefit that could be expected, to whom reference for further satisfaction may be made, if necessary. On the Eastern-shore of this state, so far famed for bilious complaints, the reputation of these medicines is established upon the most solid foundation. The inventor of them has not yet known of a single instance in which they have not been taken with all the advantage which could be expected. Every day they are coming more in demand, while their credit is increasing in the same degree. Neither the tincture nor pills contain any mercury, or any dangerous medicine whatever; they are composed of simples entirely, and are perfectly innocent. These medicines are found, when taken for the prevention of summer and fall diseases, to carry off the bile in as gradual manner as it increases; and thereby hinder its coming to excess. When taken for the cure of bilious diseases, they carry the bile away very speedily, but without any inconvenience; increase the strength of the stomach and occasion a good appetite, by which the patient is soon restored to health and spirits.

The price of the tincture is one dollar by the bottle, and of the pills half a dollar by the box: wholesale purchasers are supplied with both at a dollar, which makes a generous allowance for retailing. Sold by the inventor on the Point, No. 21, Fell's-street, and in town by George Haily, Druggist, No. 63, Market-street, and no where else in this city.

The inventor of these medicines recommends them upon principles which he will not hesitate to avow upon a proper occasion. He detects a character of a Nostrum-monger, nor would he willingly ape the Mock-doctor of Molier.

This Day Published,

By SAMUEL BUTLER, At the corner of Market and Charles-streets, Price 1 dollar neatly bound and lettered, Ferdinand & Elmira.

Printed from the original manuscript of an American lady, author of 'Dorval', 'Julia and the Baron', & 'Amelia'. The writer of this instructive and amusing work, has heretofore published the effusions of her pen in New England, and there (where the flights of fancy, as if filled by the frigid blasts of the north, are not received with that friendly welcome which they experience in the more genial climate of the south and middle states) commanded that applause, which genius and fancy never fail of producing on those liberal and candid minds who will take the trouble to discriminate between the ordinary day-labor of the common English novelist, who works for a living the same as any other mechanic, and has no other end in view than to bring forth a fashionable piece of goods, that will serve the moment and remunerate himself; and the lady of refined sentiment and correct taste, who writes for the amusement of herself, her friends and the public.

It contains upwards of three hundred pages, is well printed on a new type and fine paper.

Also, just published as above, INTERESTING ANECDOTES OF THE

Heroic conduct of Women,

Previous to, and during the French revolution: translated from the French of M. Du Broca, and other modern writers of authenticity.

When it is considered that this work records some of the most shining virtues of human nature, such as constancy, fortitude, courage, affection, tenderness, love and patriotism, as well as superior good sense and judgment, which have been exhibited by females, and shows that the Fair Sex, when exigency requires, are by no means inferior in these virtues, and in several of them superior to what in like cases would be expected from the boasted lords of the creation—it is reasonable to expect, that almost every lady of information will be happy in purchasing a book so well calculated to defend the cause of beauty, when attacked by prejudice or arrogance.

The present edition is enlarged by additional selections of about one-third more than the London translation of Du Broca's Anecdotes, and is printed on a fine cream colored paper, and still sells at only one-half the price of the London copy.

In the press, and with all convenient speed will be published, the second vol. of the Baltimore Musical Miscellany, consisting of new and approved songs set to music.

Valuable Plantation

IN LOUISIANA.

FOR SALE at public Auction, on the 20th October next, payable in one two and three years, with 7 discount.

THE PLANTATION belonging to M. Rivere, of the parish of Iberville, containing 21 acres of land upon said river, and 40 acres in depth, situated on the side towards the city by plantation, in the rear of which it increases from 10 to 12 acres in breadth to lake Borgne, and in depth from 24 to 30 acres, opening with an angle of 22 degrees, bounded on the rear by the lake; it has two vast fields planted with sugar cane, about 13 acres of which are of the species of Otaheite. The sugar establishments which had been burnt and are now repairing, are of the greatest solidity, extent, beauty and convenience, all under the same roof, consisting of a purger (or draining house) 60 feet long, and 47 wide, 6 stiers 10 feet square, each capable of containing in hinds on end above 300,000 lbs. sugar, over this a refinery capable of containing 200 sugar loaves. A sugar house 50 feet by 3, calculated for two sets of boilers; it has a gallery with two chambers for the sugar work, a set of boilers erected on stone of a quality indelible by the action of fire, they are all made to boil uniformly and together; under the building is a cellar, which will hold 200 blis. of tafia; the sugar mill house makes a wing of the entire plantation, and similar to the purger, there is a foot-way beneath and a stable adjoining. Also, an excellent saw mill with cables, gears, &c. the whole has undergone a thorough repair; the mill may be worked 15 days earlier and 15 days later than any other in the country; it is situated upon a superfluous which leads from the river and communicates with the lake, and is abundantly supplied with salt water. The lands on the borders of the canal which is navigable its whole length, are elevated and capable of improvement, and bounded with live oak; any quantity of fire wood desired may be transported on the canal. There is also a long bridge to said plantation a bank of shells, suitable for making lime; three fourths of a league long.

Also, a spacious provision store in two divisions, a dove house, well furnished, under which is the coach house. The mansion house has a ground floor and chambers composed of twelve apartments including the pantry and cellar; a house for the overseer composed of three apartments, a gallery in front and rear and two cabinets; another house in two divisions which serves for an hospital, a kitchen with 2 divisions with a double chimney, a blacksmith's shop, with all necessary tools; a dairy 2 large poultry houses, a sheep fold, a spacious shed, a lime house, 2 covered ovens, 3 negro cabins, two spacious poultry yards, a kitchen garden and orchard, all the agricultural instruments necessary quite new and made expressly to abridge labor. 50 slaves, the greater part of whom are capable of almost any kind of labor; a herd of horned cattle, horses, mules and sheep.

N. B. This land is so advantageously situated that it is capable of yielding a revenue in proportion to the number of laborers employed, and in the following series:

1. From January to August, fire wood, timber, lime and the produce of the saw mill, which has yielded in one season 22,000 dols.

2. From August to October, rice, Indian corn and other provisions.

3. Lastly, from October to the end of the year, the important crop of sugar cane, the refining of sugar and the manufacturing of tafia.
