"TEAGUE O'FLAHERTY" shall have insertion, though we must confess, it rather bothers us to comprehend his drift!

A piece, signed ONE OF THE PEO-PLE shall appear to-morrow, should the writer not oppose the liberty (we now inform him) we have taken, of smoothing the rough appearance of one line.

PROMPTER's kind of protest against certain banking improprieties shall appear -provided the responsibility of the assumed name of the drawer, is backed by the endorsement of his real name—such accommodation will remove from us any ill essells of a counter protest!

To remove a distrust experienced in new undertakings, and often piejudicial to manufadur ing attempts in America; they think it proper tor observe, that nothing material is wanted in the business to enable good artists to perform the work here, as well as in Europe. That they have three artists—that two of the partners were bred to the business in a factory of the best repute, carried on by their father, and long afterwards by themselves. They trust that while foreign gowls are received without a question, an unreasonable suspicion will not prevent their countrymen from giving an equal trial to such as are wrought among themselves-beside a natural doubt, there is room to fear, that certain intereste, national, as well as individual may auggest objections to their undertaking-It is necessary therefore to say, that work of the like kind, shall be as well executed here, as by foreign hands abroad. The colors capable of being fixed will be found as permanent, the cloths perhaps of bet'er substance, and the prices lower than of the imported cottons.
