Dr. MACE'S

ANTI-BILIOUS TINCTURE & HEALTH-PRESERVING PILLS

FOR preserving health in general, and especially for preventing the diseases of warm climates and warm seasons, such as the cholera morbus, dysentery or flux and lax, sickness of the stomach and overflow of bile, ague and fever, bilious or yellow fever, liver complaints, bilious pleurisy, bilious head ache, and jaundice or yellowness of the skin and eyes.

It is here asserted with confidence, and without the least fear of a contradiction, by the use of these medicines, that they are the best remedies for *curing* as well as preventing, bilious complaints of all kinds. A detail of many cases might be given to prove this assertion. But the following, which are taken from real facts, it is hoped will be sufficient:

E. M had been afflicted with a bilious complaint six years, so that every summer he was forced to take large doses of mercury, or else be confined to his bed. By the remedies here recommended he has been restored to a good state of health during the summer and fall. The ague and fever with which he was formerly afflicted very often has entirely left him.

F M. was afflicted with jaundice or bilious yellowness, and was perfectly relieved in 10 days by the same means

G. A had been for a long time subject to jaundice and bilious fever in the highest degree. His face and eyes were very yellow, and he was much swelled in the body. He had tried many remedies recommended by physicians and others, but without any benefit. He was, however, soon cured by the remedies given in the above cases.

L. T. had been for a long time afflicted with a bilious complaint. He had applied to different physicians, and had taken the usual remedies recommended in such cases. He also took a journey to the springs. All, however, were useless. By the same remedies taken by the above mentioned patients he was completely relieved in four days.

M. P. a young lady, was affected for a long time with a bilious yellowness of the skin and whites of the eyes, with other *particular* complaints, (for which the Tincture is a certain remedy) She had consulted a physician and had taken many remedies in vain, but was completely relieved by the same medicines as the above.

S. P. another young lady, in the same condition, was cured in the same manner

B. S. had been subject to bilious complaints for a long time, and had taken the medecines generally recommended in such cases to no purpose, but was restored to health in a short time by the above mentioned remedies.

B. L. was affected with a bilious fever in a violent degree. He had severe pains in his head back and limbs, with a sick stomach and yellowness of the skin and eyes, attended with a high fever. He took a tea spoonful of the tincture every hour or half hour until better, and then every two hours, together with the pills, and in a very few days was entirely restored to health.

The Anti-Bilious Tincture and Pills have been taken by many in this city with the greatest benefit that could be expected, to whom reference for further satisfaction may be made if necessary. On the Eastern shore of this state, so far famed for bilious complaints, the reputation of these medicines is established upon the most solid foundation. The inventor of them has not yet known of a single instance in which they have not been taken with all the advantage which could be expected. Every day they are coming more in demand, while their credit is increasing in the same degree. Neither the tincture nor pills contain any mercury, or any dangerous medicine whatever; they are composed of simples entirely, and are perfectly innocent. These medicines are found, when taken for the prevention of summer and fall diseases, to carry off the bile in a gradual manner as it increases, and thereby hinder its coming to excess. When taken for the cure of bilious diseases, they carry the bile away very speedily, but without any inconvenience; and ease the strength of the stomach and occasions a good appetite, by which the patient is soon restored to health and spirits

The price of the tincture is one dollar by the bottle, and of the pills half a dollar by the box: wholesale purchasers are supplied with both at a dollar, which makes a generous allowance for retailing. Sold by the inventor on the Point, No. 121, Fell's street, and in town by George Wally, druggist, No. 68, Market-street, and no where else in this city.

The inventor of these medicines recommends them upon principles which he will not hesitate to avow upon a proper occasion. He detests a character of a Nostrum-monger, nor would he willingly ape the Mock-doctor of Moliere

This Day Published,

BY SAMUEL BUTLER,
At the corner of Market and Charles-streets,
Price 1 dollar neatly bound and lettered,

Ferdinand & Elmira.

Printed from the original manuscript of an American lady, author of 'Dorval,' 'Juna and the Baron,' and 'Amina.'

The writer of this interesting and amusing work, has hereto fore published the effusions of her pen in New England, and there (amongst the flights of fancy, as if chilled by the frosty blasts of the north, are not received with that ardent welcome which they experience in the more genial climate of the south and mid le states) commanded that applause, which genius and taste never fail of producing on those liberal and candid minds who will take the trouble to discriminate between the ordinary day-labor of the common English novelist, who works for a living the same as any other mechanic, and has no other end in view than to bring forth a fashionable piece of goods, that will serve the moment and remunerate himself; and the lady of refined sentiment and correct taste, who writes for the amusement of herself, her friends and the public.

It contains upwards of three hundred pages, is well printed on a new type and fine paper.

Also, just published as above,
INTERESTING ANECDOTES
OF THE

Heroic conduct of Women,

Previous to, and during the French revolution: translated from the French of M. Du Broca, and other modern writers of authenticity.

When it is considered that this work records some of the most shining virtues of human nature, such as constancy, fortitude, courage, affection, tenderness, love and patriotism, as well as superior good sense and judgment, which have been exhibited by females, and shews that the Fair Sex, when exigency requires, are by no means inferior in these virtues, and in several of them superior to what in like cases would be expected from the boasted lords of the creation—it is reasonable to expect, that almost every lady of information will be happy in purchasing a book so well calculated to defend the cause of beauty, when attacked by petulence or arrogance.

The present edition is enlarged by additional selections of about one-third more than the London translation of Du Broca's Anecdotes, and is printed on a fine cream colored paper, and still sells at only one half the price of the London copy.

In the press, and with all convenient speed will be published, the second vol. of the Baltimore Musical Miscellany, consisting of new and approved songs set to music.

Merchants & owners of Vessels

GENERALLY.

AN association having been formed by a number of master ship-Carpenters, under the denomination of "*Baltimore Ship-Wrights*" for the purpose of executing in the most expeditious and workmanlike manner the commands in the said line of business—they hereby solicit a share of public patronage, and inform that JAMES GORDEN, vice president, and JAMES WHEEDEN and WILLIAM DRUMMOND, superintendants, on Fell's Point, are prepared to receive all orders which merchants, captains or others may favor them with. They will for the present conduct their business, on the wharf occupied by J. Wheeden, adjoining Mr John Hollins's wharf, where the will always be provided with spare Spars and other outfit, to furnish at the shortest notice and on the most moderate terms.

It is deemed expedient to notice, that all the persons forming this association are masters of their business, and as they intend themselves principally, to give their personal application in executing work for their employers, it is hoped, that on this score they will claim a preference from those who make it an object to have things done in a masterly manner.

American Manufacture.

CALICOES, Furniture Cottons, Shawls and Pocket Handkerchiefs printed and sold by the subscribers, at No 13, Calvert-street.

To remove a distrust experienced in new undertakings, and often prejudicial to manufacturing attempts in America; they think it proper to observe, that nothing material is wanted in the business to enable good artists to perform the work here, as well as in Europe. That they have these artists—that two of the partners were bred to the business in a factory of the best repute, carried on by their father, and long afterwards by themselves. They trust that while foreign goods are received without a question, an unreasonable suspicion will not prevent their countrymen from giving an equal trial to such as are wrought among themselves—beside a natural doubt, there is room to fear, that certain interests, national, as well as individual may suggest objections to their undertaking—It is necessary therefore to say, that work of the like kind, shall be as well executed here, as by foreign hands abroad. The colors employed being fixed will be found as permanent, the cloths perhaps of better substance, and the prices lower than of the imported cottons.

The customary credit will be given on good notes or acceptances in the city.
