To remove a distrust experienced in new undertak: 231. and often prejudicial to manufadur ing attempts in America; they think it proper to observe, that nothing material is wanted in the business to enable good artists to perform the work here, as well as in Europe. That they have these artists—that two of the pariners were breil to the business in a factory of the best repute, carried on by their father, and long afterwards by themselves. They, trust that while foreign gordis are received without a question, an unreasonable suspicion will not prevent . heir countrymen from giving an equal trial to such as are we ught among themselves-beside a natural doubt, there is room to fear, that certain interests, national, as well as individual may suggest objections to their undertaking-It is neaeseary ilierriore to say, that work of the like kiral, shall be as well executed here, as by foreign hands abroad.
