

continues to be the order of the day on both sides of the channel. The emperor is embarking and disembarking on the one side; whilst our illustrious commander in chief is equally busy, in reviewing and setting in array on the other.

By this mail the following statement has been received of the force of the Russian Imperial Army; exclusive of 12,770 invalids, it consists in the whole of 493,859 men, among which 42,919 are artillerymen, 70,334 soldiers in garrison, 219,125 field infantry, 42,731 cavalry, 9,303 foot guards, & 3,316 horse guards.

Dispatches were on Wednesday received at the Admiralty from Sir James Saumarez, at Jersey, which shew, that an expectation was daily entertained of an attack from the enemy, several movements having of late observed to have taken place. Dispatches were also received from Admiral Thornborough, dated off the Texel, the 11th inst. The enemy remained nearly in the same position as they did when the previous accounts were transmitted.

The Bengal fleet, consisting of seven ships, and estimated at 2,000,000 is expected to arrive before 1st of next month and our apprehensions are now entertained for their safety.

The court of directors of the East India house have voted the following sums to the captains, officers, & seamen of the China fleet, for their gallant conduct in beating off the French squad under Admiral Linois:—

To captain Dance 2000 guineas and a piece of plate value 200 guineas; capt. Timens 1000 guineas, plate 100; capt. Moffet, 500 plate 100; capt. Henry Wilson, Farquharson, Torin, Clarke, Menton, Wordsworth, Kirkpatrick, Hamilton, Farre, Pevaegrass, Brw, Larkins and Luckner, 500 each plate 40; chief officers 150 guineas, second do. 125; third, fourth, pursers, & surgeons 80; fifth, sixth, surgeons' mates, boatswains, gunners, carpenters, 50 each; midshipmen 30; other petty officers, 13; seamen, ordinary seamen, and servants, 6.

Lieutenant Fowler, passenger on the Camden, captains Darce, for the services he rendered, 300 guineas for a piece of plate.

The value of the fleet thus saved, on an estimate made by the supercargo including the private as well as the public investments, appear to be above 8,000,000 sterling.

The courts in addition to the above bounty to the officers and crew, have resolved, that the usual gratuity of 30l & a pension from the Popular Fund shall be granted to the nearest relative of the seamen who fell in the action with Linois.

It is stated in the Moniteur of the 4th, that Ibrahim Bey, at the head of the Mamelukes, had made himself master of Boulae and Old Cairo.

Application has also been made to the city of Lubec for a loan, which has been refused. These outrages of the French must accelerate that Confederacy of the northern powers of which Bonaparte seems to feel such apprehension; and the circumstance of Louis XVIII having left Warsaw leads us to suppose that the Emperor of Russia will very soon take a decided part against France. The king of Sweden is arrived at P. nitz.

Bonaparte is expected at Antwerp.

BALTIMORE

THURSDAY, OCTOBER 18, 1804.

Extract of a letter, received from Mr. John Lewis, supercargo of the sch'r Maryann, of Philadelphia dated Point Petre, Guad. September 8.

It is with the greatest pleasure that I inform you of our safe arrival this morning, after a long passage of 48 days, owing to head winds and calms.—On the 4th & 5th inst. 3 or 4 d grees to windward of Antigua, we experienced a most terrible gale of wind, lay to 48 hours, and had not our vessel been extremely good, we should have gone to the bottom.— It is really a miracle we saved our horses, (except 3 that died of their wounds.)—I cannot praise too much the exertions of Captain Anthony R. his mate, to preserve them.— A little farther Southward was a dreadful hurricane.—After the gale, we picked up a new 14 feet yawl, and spoke an English frigate that had lost her topmast—many Americans are lost on and about Dominica, Martinique and Guadeloupe, (one in particular, a captain Babson, of Cape Ann, his brig and cargo totally lost at Basseterre)—very fortunate for us, that we were not near the land.—At present here are about 40 sail of American vessels.— Markets for our cargoes horrid—Island produce extremely scarce, and high—Coffee, none, and Molasses can hardly be got with cash.—Part of my cargo lies so at the following reduced prices, viz. No. 1 and 2 beef 10 dolls. No. 3 d. 4 dolls. half bb's mess do. 6, No. 1 and 2 pork 14, half bb's do. 7—mackerel 7, brandy 1, boxes oil 7, butter 24 cents, bacon 26 do. sperm candles 50 do. lumber 30 dolls. staves 25, (lad enough)—dry goods, hard ware, glass do. shoes, boots, boot legs, leather, calf skins, &c. (worse yet.)

The Marquis De Casa Yrujo, and Major JACKSON.—The Federal papers are filled with commendations of the conduct of one of the Federal Editors, a Major JACKSON of Philadelphia for rejecting some overtures, of the Spanish Ministers, for engaging in the service of Spain, in the newspaper, which the Major conducts.—The circumstances, it seems, are these: Major JACKSON was sent for by the Marquis De Casa Yrujo, and after some preliminary conversation, in which the Minister spoke very improperly of the American Government, he proposed to furnish the Major with documents and information, respecting the boundary of Louisiana, contended for by the Spanish Crown. The Major rejected the overtures; and immediately made oath to the transaction, and transmitted it to the President, with a letter, in which he hints, that nothing but the Marquis's official character, would prevent him from demanding (in the language of duellists,) satisfaction for the insult. Several reflections, which we hope will not be deemed unandid, arise from these circumstances.

In the first place, it is plain, that Major Jackson behaved properly in the business and discharged the duty of a citizen. Secondly, it appears that the federal editors think it a wonderful instance of integrity, that one of their set should refuse to enter into any conspiracy, however reasonable, to embarrass the government. Else, why do they make so much noise, about the incorruptibility of a gentleman, who has plainly done no more than his duty. In the third place, the federal editors may see the disgraceful light, in which they are viewed by foreign Ministers and by foreigners. The mistake of the Marquis Yrujo is not very unnatural. From the open, avowed and inveterate hostility of the opposition prints, to the administration, he might rationally suppose, that they might easily be enlisted with any allies, in any scheme of oppugnation. Lastly, the Major, so far from deeming the conduct of the Marquis an insult on his honor, which demanded expiation, at the muzzle of a pistol, ought to have considered it, as a natural consequence of the envenomed and outrageous abuse which he has heaped on the Government of his country.—And thus ends our Catechism! [National Egis]

From the CONNECTICUT JOURNAL.— Messrs. GREENS, I have to request our farmers to take a little more care in making their Cider, of which they have this year a great plenty. It is found that nut-mills are not as good as a wheel for grinding, as the latter most effectually presses the pulp of the apple.—But a more important thing is, to let the pumice lie at least a day in the trough, before it is put upon the press.—The use of this is, to give the juice time to penetrate and soften the pulp of the fruit after it is bruised; and thus extract the sugar of the apple; which is the best part of it. The watery and acid parts, being least tenacious, are first separated by the force of the nuts,

the wheel or the press; and if pumice is pressed immediately after grinding, the saccharine matter, which is more viscid, is retained, unless the pulp is well macerated and softed.

A lover of good Cider.

Married on Monday evening last, by the Revd. Mr. KURTZ, Mr. Archibald Teal to Miss Susanna Whitelock, both of this city.

A MEMORIAL

Will be presented to the next General Assembly, praying that a Law may pass to authorise the Levy court of Baltimore County, to levy, on the assessable property of said county, such sum of money as may be necessary to build a Court-House.—The same to be levied in three equal annual assessments. September 28, 1804.

The voters of the Fifth District are informed, that Mr. Tobias E. Stansbury, (if elected) will serve as elector of president and vice-president, at the ensuing election. Mr. Stansbury is a republican in principle, and a firm supporter of the present administration. Perhaps it may be proper to observe, that the election of Mr. Stansbury to serve as an elector, will not interfere with the duties of legislation, as a member of the general assembly of Maryland.

The voters of the Third District are informed that Mr. Edward Johnson, of the city of Baltimore, and Mr. John Johnson, of the city of Annapolis, will serve as electors of president and vice-president, if elected by their suffrages. Perhaps it may be necessary to remark, that both these gentlemen are firm and avowed advocates of the present administration, and as such will no doubt be supported by the republican voice.

G. P. KEEPORTS, esq. was at an early period recommended as one of the electors of president and vice-president, for the third district. He is well known as a firm republican, and as the warm and decided friend and supporter of Mr. Jefferson and the present administration: And if his correct political principles are properly appreciated, he will secure the confidence of republicans generally. A VOTER.
