

**DR. MACE'S ANTI-BILIOUS TINCTURE & HEALTH-PRESERVING PILLS.**

FOR preserving health in general, and especially for preventing the diseases of warm climates and warm seasons, such as the cholera morbus, dysentery, or flux and laxness of the stomach, and overflow of bile, ague and fever, biliousness, yellow fever, liver complaints, bilious pleurisy, bilious head ache, and jaundice or yellowness of the skin and eyes.

It is here asserted with confidence, and with out the least fear of a contradiction, by the use of these medicines, that they are the best remedies for curing as well as preventing bilious complaints of all kinds. A detail of many cases might be given to prove this assertion, but the following, which are taken from real facts, it is hoped will be sufficient:

E. M. had been afflicted with a bilious complaint six years, so that every summer he was forced to take large doses of mercury, or else he confined to his bed. By the remedies here recommended he has been restored to a good state of health during the summer and fall. The ague and fever with which he was formerly afflicted very often has entirely left him.

F. M. was afflicted with jaundice or bilious yellowness, and was perfectly relieved in 10 days by the same means.

G. A. had been for a long time subject to jaundice and bilious fever in the highest degree. His face and eyes were very yellow, and he was much swollen in the body. He had tried many remedies, recommended by physicians and others but without any benefit. He was, however, soon cured by the remedies given in the above cases.

I. T. had been for a long time afflicted with a bilious complaint. He had applied to different physicians, and had taken the usual remedies recommended in such cases. He also took a journey to the springs. All, however, were useless. By the same remedies taken by the above mentioned patients he was completely relieved in four days.

M. P. a young lady, was affected for a long time with a bilious yellowness of the skin and whites of the eyes, with other particular complaints, (for which the Tincture is a certain remedy.) She had consulted a physician and had taken many remedies in vain, but was completely relieved by the same medicines as the above.

S. P. another young lady, in the same condition, was cured in the same manner.

B. S. had been subject to bilious complaints for a long time, and had taken the medicines generally recommended in such cases to no purpose, but was restored to health in a short time by the above mentioned remedies.

B. B. was affected with a bilious fever in a violent degree. He had severe pains in his head back and loins, with a sick stomach and yellowness of the skin and eyes, attended with a high fever. He took a tea spoonful of the tincture every hour or half hour until better, and then every two hours, together with the pills, and in a very few days was entirely restored to health.

The Anti-Bilious Tincture and Pills have been taken by many in this city, with the greatest benefit, that could be expected, to whom reference for further satisfaction may be made if necessary. On the Eastern shore of this state so far famed for bilious complaints, the reputation of these medicines is established upon the most solid foundation. The inventor of them has not yet known of a single instance in which they have not been taken with all the advantage which could be expected. Every day they are coming more in demand, while their credit is increasing in the same degree. Neither the tincture nor pills contain any mercury, or any dangerous medicinal ingredients; they are composed of simple and pure, and are perfectly innocent. These medicines are found, when taken for the prevention of summer and fall diseases, to carry off the bile in a gradual manner as it increases, and the consequence is to prevent excess. When taken for the cure of bilious diseases, they carry the bile away very speedily, but without any inconvenience; and ease the strength of the stomach and occasion a good appetite, by which the patient is soon restored to health and spirits.

The price of the tincture is one dollar by the bottle, and of the pills half a dollar by the box; wholesale purchasers are supplied with both at a dollar, which makes a generous allowance of retailing. Sold by the inventor on the Point, No. 21, Fell's street, and in town by George Baily, Druggist, No. 15, Market-street, and no where else in this city.

The inventor of these medicines recommends them upon principles which he will not hesitate to avow upon a proper occasion. He detests a charlatan, a nostrum-vender, nor would he willingly give the work of a doctor of Moler.

THE Managers of this Lottery flatter themselves, from the elevated and healthy situation chosen by the Commissioners appointed for building the Market-house, that it will be of the greatest utility and advantage, to that part of the city, and to the country in general; and beg leave to recommend it as an object worthy of their encouragement.

As the above Scheme offers every possible encouragement to adventurers, from the many valuable Prizes it contains, and there being considerably less than two blanks to a Prize, and all Prizes payable in 60 days after the drawing of the Lottery is completed without any deduction, the Managers entertain the greatest hopes of such a speedy sale of the Tickets, as may enable them to commence drawing without loss of time.

For the satisfaction of the public, it may not be unnecessary to inform them, that the Managers have given bond to the State of Maryland in the sum of 30,000 dollars, for the due performance of the trust.

1314 Blanks.

20,000 Numbers. Not two Blanks to a Prize. The tickets to be sold in halves, at five dollars each.

The Managers respectfully solicit the aid of the public to accomplish the object of the above Lottery.—Considerable exertions for several years having been already made by an association of ladies, for the education of poor orphans of all denominations.—Teachers in every part of the city have been aided quarterly for the schooling of children, and in some instances assisted with necessary articles, from the precarious resources of subscription, public and private donations, charity sermons, &c.

The legislature of Maryland have been pleased to grant a lottery to raise a fund upon more stable and permanent principles, for the support of this institution; and the mayor and city council, in sanctioning it by an ordinance, have also given a very honorable testimony of their good wishes, by relinquishing the customary tax on the Lottery.—The Managers therefore confidently hope, that the above scheme, as well from the benevolence of its intention, as the principle of adventure, will be inviting to every citizen, in this or any other part of the United States. Adventurers in this lottery, while they feel a conscientious and consoling reflection of having thereby contributed their mite to the permanent establishment of a Free School, for the education of poor children, male and female, of every denomination; will also in a pecuniary point of view, experience advantages superior to any other scheme heretofore offered.

For the convenience of purchasers, the managers have thought proper to strike off the tickets in halves, leaving it optional with the purchaser to take the whole or half ticket.

The managers have given bond for the faithful performance of their trust.

Sixty days after the drawing is finished the prizes will be paid, subject to a deduction of 12 1-2 per cent.—if not demanded within 12 months after the drawing is finished, they will be considered as relinquished for the orphans.

N. B. Letters to either of the Managers enclosing the cash, post paid, will be duly attended to. The managers promise to keep a register of all names of adventurers at a distance, and to furnish them with the fate of their tickets, to any part of the continent, when the drawing is finished. may 9
