## WASHINGTON TONTINE.

Gerrgetown, 6th Officher, 1804.

A NUMBER OF PROPRIETORS in the city of Washington, with views to convert their property into immediate money, have formed the following PLAN of a TONTINE; and have appointed the subscriber heir agent for carrying the same into execution.

A list of the lots embarked in this enterprise precedes the plan of the institution. Plais of thecity, on which these lots will be designated, will be lodged at the several taverns in Wasitington and George Town, for public inspection; and books will be opened in the city for receiving subscriptions of shares, on the 1st day of December, ensuing. hould books be opened e'sewhere, due notice will be given thereof. Payment must be made for the shares at the time of subscribing, but if contrary to reasonable expectation, a sufficient number of shates should not be subscribed for the execution of the scheme, the money shall be faithfully returned to the subscribers, and without any unnecessary delay.

The constitution of the Tontine is too plain to need explanatory remarks. The basis of the institution being a rising property, rated on a very low scale, the advantages must be greater than could result from a mere monied instituti op. It seems indeed more than probable, that each'stockholder who survives the dissolution of the company, will find the value of his stock augmented twenty fold, or more. If any think that this savors of extravagance, let them advert to the increased value of unimproved property in any of our large towns, during the last 20 years. Let them compare with the prices of the Tontine lots, those of the most indifferent property in any of these towns, now. It wil not be contended that any town in the Un ted States had 20 years ago, fairer prospects of rapid increase, than Washington has at this day. The fact will not be disputed, that the Tont ne lots are generally amongst the most valuable in Washington.

The seat of government for such a country as the United States, cannot long remain an inconsiderable eity. But Washington has an advantage more important than even this. It is the nea est sea-port to that country which may be justly denominated the granary of America.

A plan of this kind, formed 20 years ago on the basis of unimproved property in Baltimore, or even in George-Town, would have yielded to the surviving adventurers of this day, a profit of forty, if not un hundred fold.

In May, 1800, Washington contained 3,200 inhabitanis-in May 18e3, 4,350 The number now exceeds 5,000. In the same ratio of progressive increase, the population in 1807 will be 6.600-in 1810, 8,800-in 1813, 11,800-in 1816, 15.800-in 1819, 26,000-in 18,22. 28,000 and in 1825, 33, coo. Men of sense, who examine the situation of the Tontine lots, will perceive that the whole of them must be in demand for improvement before the population rises to 20,000. From the time, happen when it will, that our commerce shall principally depend upon our own productions, and our own Consumption, the increase of the city will be infinitely more rapid. The resources of the country attached to it by nature, are now equal to have as many votes as shares. The first to the maintenance of 60,000 souls in the city. | election shall be held at Stelle's Hotel in the These resources, diverted at this time into many different channels, will be confined almost exclusively to Washington, when Europe shall be at peace, and each maratime nation can carry for itself.

The usual mode of selling lots in our large towns, is by the front foot—in Washington the mode is by the square foot. At the highest price in this plat, a ot of 25 feet by 120, will be 240 dolla: s-the lowest price 60 dollars; in squarees where there are alleys, a trifle more. The who e property leased out at 3s. per front foot, would pay more than 6 per cent.

WASHINGTON TONTINE.

Article 1. The capital of the company shall be two hundred and fifty thousand dollars, divided into shares of fifty sollars each; and the same shall be invested in three millions eight hundred and ten thousand eight hundred and seventy equare seat of ground in the city of Washington, including privileges of alleys; to consist of the lots, a particular list of which is hereunto annexed; and which their owners have covenanted shall be conveyed by sufficient deeds of general warrantee, and free from all incumbrances, unto David Peter and James Morsell, exgrs. of the district of Columbia, and to the survivor of them, and to the executors and administrators of such survivor, to be held by them in trust until disposed of as hereafter directed, for the use and benefit of the company. The titles of every proprietor are to be investigated and ap. proved of by John T. Mason and Philip B. Key, esqs before passing the deeds.

Article 2. Every subscriber may, at the time of subscribing, or at any time before the first day of July, in the year 1805, nominate a person or persons with whose life or lives the shares taken for him shall be commensurate: And any person desirous of making provision beyond the reach of common accident, for persons of tender age, may subscribe in the names of such persons. Subscriptions may be also made by proxy. But, until the nomination shall be made as aforesaid, the existence of the shares shall depend upon the lives of the persons in whose names they shall have been subscribed. All neminations on which the shares are to depend, must include a description of the age and place of residence of the persons nominated, and nominations not made at the time of subscribing, may be sent to the director, who shall be first elected to manage the concerns of the company, any time before the first day of July, Ss aforesaid.

Artice 3. Upon the death of any person, with whose life a share or chares shall have been made commensurate, such share or shares shall thereupon he extinct; and all the interest of the owner thereof, in the property of the company, dependent upon such shares, shall cease and determine, and the same shall become the property of the owners of the surviving shares, meaning the shares dependent upon the lives of persons continuing to survive.

Article 4. The affairs of the sompany shall be managed under the superinter dance & direction of five directors, who shall be stockholders, to be chosen in each year by billot, by the stockholders attending in person, or by prexy, each city of Washington, on the first Monday in February, 1805, under the uirection of Robert Brent, John P Van Ness, David Peter, Walter S. Chandler, and John Davidson, esqrs. or any two of them; and each succeeding election shall be held on the first Monday in every January thereafter, under the superintendance et at least two of the directors for the year preceding; at such place in the said city as they shall appoint, giving due notice thereof in one or more newspapers, published in the city of Washington

Artic e 5. The directors shall have full power to sell in fre-simple, or to lease on ground rent, renewable screver, the property belonging to the company; and to manage all the other cencerns of the company: but they shall not dispose of more than one sixth part of the lots in any one year, pri r to the year 1810: nor sell the same at less than 25 per cent, advance on the original cost; nor shall they leave them at a less rate than 12 and an half cents per front foot, for every cent cost to the company per square foot. But though the limits are thus fixed, below which the property cannot be disposed of, it is not meant that it is to be sold as fast as these rates can be obtained: On the contrary, the directors are at all times to exercise a sound discretion for the test interests of the company; and to keep in view the certainty of rise in the value of the property, from the increasing population of the city.

Article 6. All money arising from the sales of lots, shall be invested in the stock of the United States, in the name of the companythe interest arising from which, as well as all money arising from ground rents, shall also be invested in like stock, u-til the last day of December, in the year 1807-after which; all interest srising from stock, or sales of lots on time-and all monies arising from ground tents, and all other profits, shall be divided semiannually on the 15th day of January, and the 15th day of July in each year, among all the share owners, in proportion to the interest of each. whose shares existed by the continuance of the-lives with which they were made com-

mensurate, on the first day of that year. Article 7. The dividends shall be paid at the office of the company in Washington, to the owners of the shares in person, to their power of attorney, or to their wiltten order; but bescre any dividend shall be paid, saulsfaction per squire foot.

We are not going to fend a board of commissioners, or a judiciary eliablishment, for the purpose of hearing and determining upon the claims set up. but to procure for ourselves that information which wil enable the government to decide, without their instrumentality.
