WASHINGTON TONTINE.

Georgetoren, 6th Oalber, 1804. A NUMBER OF PROPRIETORS in the city of Washington, with views to convert their property into immediate money, have Sounced the following PLAN of a TONTINE; and have appointed the subscriber heir agent

for carrying the same into execution. A list of the lots embarked in this enterprise precedes the plan of the institution. Plats of the city, on which these lots will be designated, will be lodged at the several taverus in Washington and George . Town, for public inspection; and books will be opened in the city for receiving subscriptions of shares, on the 1st day of December, ensuing. hould books be opened e sewhere, due notice will be given thereof. Payment must be made for the shares at the time of subscribing, but if contrary to reason-HE subscribers having procured a conveni- able expectation, a sufficient number of theres should not be subscribed for the execution of pening a School for the tuition of Psalatochy on | the scheme, the money shall be faithfully returned to the subscribers, and without any unnecessary delay.

The constitution of the Tontine is too plain ato need explanatory remarks. The basis of the institution being a rising property, rated on a very low scale, the advantages must be greater than could result from a meie moniest institution. It seems indeed more than pighable, that each stockholder who survives the dissolution of the company, will find the value of his stock augmented twenty fold, or more. If any think that this savors of extravagance, let them advert to the increased value of unimproved property in any of our large towns; during the last 20 years. Let them compare with the prices of the Tontine lots, those of the most indifferent; of July, in the year 1805, nominate a person or not be contended that any town in the United States had zo years ago, fairer prospects of rapid increase, than Washington has at this day. The fact will not be disputed, that the Tont ne lots are generally amongst the most valuable in Washington.

The seat of government for such a country as the United States, cannot long remain an inconsiderable city. But Washington has an advantuge more important than even this. It is the neasest sea-port to that country which may be justly denominated the granary of America. A plan of this kind, formed 20 years ago on the basis of unimproved property in Baltimore, or even in George-Town, would have yie'ded to the surviving adventurers of this day, a profit

of forty, if not an hundred fold.

In May, 1800, Washington contained 3,200 inhabitants—in May 1803, 4.350 The number now exceeds 5,000. In the same ratio of pro-! gressive increase, the population in 1807 will RAN awa. from the subscriber on Thursday | be 6,600-in 1810, 8,800-in 1813, 11,800-in stare in her looks, and it is suspected, that she | mine the situation of the Tontine lots, will has sometimes fits of insanity. She had on | perceive that the whole of them must be in dewher she went away, a woollen petticoat and mand for improvement before the population jacket, and white and blue cotton striped jacket | rises to 20,000. From the time, happen when worsted stockings, a cotton shawl, and a blue | depend upon our own productions, and our own consumption, the increase of the city will be infinitely more rapid. The resources of the country attached to it by nature, are now equal to the maintenance of 60,000 souls in the city. These resources, diverted at this time into minny different cha nels, will be confined almost exclusively to Washington, when Europe sha'l be at peace, and each maratime nation can carry for itself.

The usual mode of seiling lots in our large towns, is by the foot - in Washington the mode is by the square foot. At the highest price in this plat, a ot of 25 feet by 120, will be 240 dollars-the lowest price 60 dollars; in squarees where there are alleys, a triffe more.

The whose property leased out at 2s. per front foot, would pay more than 6 per cent. interest on the capital.
