WASHINGTON TONTINE.

THE PLEASE THE PARTY OF THE PAR

Georgetown, 6th October, 1804. A NUMBER OF PROPRIETORS in the city of Washington, with views to convert their property into immediate money, have formed the following PLAN of a TONTINE; and have appointed the subscriber heir agent | for comying the same into execution. A list of the lots embarkes in this enterprise 3,810,870

orecodes the ulan of the institution. Plain the ciry, on which these lots wi'l ignated, will be lodged at the several tall ington and George. Town, for publicuspection; and book, will be opined in the city for receiving subscriptions of shares, on the 1st day of December, ensuing. Should books be opened e sewhere, due notice will be given thereof. Payment must be made for the shares at the time of subscribing, but if contrary to reason-HAVE forme in partnership in the Lumera able expectation, a sufficient number of shares and ten thousand eight hundred and seventy should not be subscribed for the execution of square feet of ground in the city of Washington, the scheme, the money shall be faithfully returned to the subscribers, and without any unnecessary delay.

The constitution of the Tentine is too plain to need explanatory remarks. The basis of the institution being a rising property, rated on a very low scale, the advantages must be greater | than could result from a mere monied institution. It seems indeed more than probable that each stockho der who survives the dissolution of the company, will find the value of his stock augmented twenty fold, or more. If any think that this savois of extravagance, let them advert to the increased value of unimproved property in any of our large towns, during the list 20 ! years. Let them compare with the prices of the Tontine lots, those of the most indifferent property in any of thes- towns, non- 1: wil not be contended that any town in the United ! States had 20 years ago, fairer prospects of rapid increase, than Washington has at this day. The fact will not be disputed, that the I ont no lots are generally amongst the most valuable

in Washington. The seat of government for such a courtry as the United States, cannot leng amain an inconsiderable caty. But Washing to hear alvantage more important this even this. It is: the nea est sea-port to that country which may the fend must include a description of the age be justly denom nated the granny of America. A plan of this kind, to med to year, ago on A vainable tradt of LAND, called Lieburn, the basis of unimproved property in Baltimore, containing by patent 445 acres, 66 perches, with | or even in George-Town, would have yie dea the usual allowance. This tract lies in the coun- +-to the survivengudventurers of this day, a profit of forty, if not an hundred fold.

In May, 1800, Washington contained 3,200 inhabitan s-'n May 1803, 4.350 The number now exceeds 5,000. In the same ratio of progressive increase, the population in 1807 will be 6,6cc—in 1810 8,8eo—in 1813, 11.2eo—in 1815, 15.800-in 1819, 26,000-in 18,22. 28,000 and in 1825, 33, 100. Men of sense, who examine the situation of the Toutine lots, will perceive that the who e of them must be in demand for improvement before the population rises to 20,000. From the time, happen when it will, that our commerce shall principally depend upon our own productions, and our own consumption, the increase of the city will be infinitely more rapid. The resource of the country attached to it by nature, he now equal to the maintenance of 60,000 souls in the city. These resources, diverted i illustime nto miny different channels, wi . be confinen .. most exclusively to Washington, when Europe shall be at peace, and each maratime nation can carry for itself.
