A remark le COW
To be seen at Mr. J. M. Harker's No. 36, Mar-
ket street.

THIS animal was taken wild in the North-
ern part of the State of New Hampshire,
and it is supposed to be part moose. It has six
legs, four of which resemble those of ordinary
cattle, and are used for walking; the other
two rise out of the fore shoulders in an erect
posture, and can be folded upon the back, where
here is a hollow which will hold two quarts
of water. One of these legs is large and perfect,
having the hoofs complete; the other is smaller,
and has only half of the hoof.
Visitors will be gratified at the same time
with music on the hand organ, accompanied
with the shepherd's reel,
Also to be seen there,

Its calf,
Which is equally remarkable for the same
phenomena. Price of admittance 12 1/2 cents.
