at 5 guineas per quarter."

[Boston Paper.]

We do not remember to have experienced so warm weather as the last three days; yesterday in many parts of the town the murcury was up to 97, in a cool passage it was from two o'clock to five at 95, and at seven in the evening at 93. [Norfelk Ledger.]

-Yesterdey a fatal instance of the imprudence of drinking too freely of cold water occurred; a poor man fatigued with work took a large draught of coid water when much heated, which almost instantly put a period to his existence. [Ibid.]

THE NAVY OF GREAT BRITAIN.

As the fleets of France, and her colonies Spain and Batavia, have not on: manifested a desire to risk a rencounter with the British, but have actually thrown themselves into the way most like to prove their relative powers, it may not be impertinent, at this time, to give our readers some idea of the British naval force. Somedays ago, while offering a conjecture on the probable design of Bonaparte in sending out the late and present de- of your produce; in this case I am of to each foremast man was 30%. which was tachments, we stated that, in Novembar. the British sleet, in commission, amounted to about 70 ships of the line .: we mentioned this number from memory, and we have not had any means of ascertaining its correctness-We are now able to ascertain the strength of that Navy on the 1st of April 1805 .- viz. In Commission:
