French Night Schoo!.

ATOTICE is hereby given, that I the sub-IN scriber, Teacher and Translator of the French & English l'ongues, have resumed the FRENCH NIGHT SCHOOL in my common dwelling, between Light-street and Charlesstreet; but as to promise to do wonders in be half of my pupils—I have no need, it suffices to tell them that no language can be learned withoutgrammatical rules, even as far as translation; the master and schollars must take a great deal of pains; also, that every person is not capable to learn a foreign language. Those impartial judges who know me will certainly agree, that after having taught the French language to the most respected Ladies & Gentlemen of America, during more than 45 years; I ought to be a competent judge. I would advise those promising youths who will favor me with encouragement, to apply as soon as possible, so that they may get some benefit of their studies by the 15th of March.

> TO BE SEEN, Two Dromedaries, FROM ARABIA.

HESE are the first of the species ever im-A ported into this country. The value of them is such, that the Arabian, possessed of his Dromedary, has nothing either to want or to fear. They will travel at the rate of a hundred miles in a day, 5 or 6 days together, without either eating or drinking. They are part like the horse, cow, sheep, and the rabit, and are the most docile animal in the world. They kneel down, take on their load, and wait the pleasure of their keeper to rise. They arrive at their full growth at 6 years old, which is about 20 hands high, and live to the age of 40 or 50 years. The oldest of the above is forty years, and the youngest 17 months.

These astonishing Animals are to be seen at No. 26, opposite the lower Marsh-market It is to be hoped the Ladies and Gentlemen of Bakimure will not loose this favourable opportunity, which may be the only one (at least for many years) of viewing these surprising animals, so much spoken of by naturalists and Historians.

VENEREAL COMPLAINTS. S Dr. WARNER's practice has been very A extensive both in public and private, daily experience convinces him of the propriety of his method of removing the venereal disease, in preference to any medicine vended or known in Baltimore.
