the Eagle, Wecks, which was the first case that | said shipments to be restored. occurred in the superior court, that was sent back for further explanation, whether the duties were bomi side paid, the duties of exportation. And the Essex, Orne, was a singular case, the lards were of opinion that if the goods were for an object the covering. Spanish proimported into America with a view to their being immediately exported that would not break the continuity of the voyage. I must again refer to the management of this cargo at New-York, if it does appear that it was imported thereto, with a view immediately to be sent to Europe, this court is bound to treat it as a continuous voyage. Upon these grounds both in point of principle and authority, I am of opinion that it is a continuous voyage, which will affect ! the ship, and the cargo belonging to the owner thereof-I am surry if a mistake has prevailed in America: certainly it did not reach these returning to St. Thomas, with a homeowners, they have according to my views of the ward cargo of Sugar and Sarsaparilla, subject studiously attempted to withdraw the but detained by some armed ships, befact from the view of the court, knowing perfeetly well what the discovery of that fact would expose them to, therefore I shall condemn that part of the cargo and the ship.

SPECIAL MARTING-Dec. 23d, 1805. Whereas, by a recent communication made by the president of the United States to congress, it has been officially stated, that our territory has been violated, and some of our fellow citizens have bech seized and taken by an armed force acting under the authority of the Spanish government, and it further appears by said communication, that persons acting under the same authority have purchased military stores and provisions, and that even his officers, both civil and military, have publicly declared that the negociations at Madrid had failed to effect the peaceable adjustment of our differences, and that Point Petre, December 27, brigs Mars, war, with all its train of concomitant evils, Pamberbon, of New York, in 7 or 8 days must be the inevitable consequences; & that for St. Thomas; Brilliant, Montscrat, he said preparations were intended to facilitate an unjust attack upon a portion of our territory to the destruction of our peaceable citizens and their property, the prostration of our rights, as well as to the for Charleston, in 24; Phocion, Dunlap, entire degradation of our bonor and dignity as a free and an independent nati-

NEUTRAL COMMERCE.

. We have received from Washington, a pamphlet of 204 pages, purporting to be can examination of the British doctrine, which subjects to capture a neutral trade, not open in a time of peace."---It is written with no inconsiderable ability and much legal research. The authority of the great depositaries and oracles of the law of nations, viz. Grotius, Puffendorff, Baynkershoek, Vatal and Mattens, is pointedly introduced and luminously applied. All the treaties, involving the rights of neutral commerce, are either cited or specifically referred to. The remarks which accompany this elaborate examination are irresistible: and the authority of her own treaties is produced in condemnation of the present conduct of the court of Great-Britain. It does not appears from whose pen this interesting production has issued. (Phil. paper.)

We are assured that the late treaty for lands in the Southern parts, of our territories, has prevented a communication betiteen the Spaniards and Choctaws, and connected the Tombigby settlements with those of the Natchest. In Kentucky, the proceedings of the Legislature respecting the privileges of a Bank establishment in that State, has brought out the executive interference. Gov. Grenlip has stated the evils he apprehends and the decisive character of an expost facto luly. This has subjected him to some. of that censure which contending interests iliscover.
