Literary and Commercial SEMINARY,
Second door from the north west corner of North and Lexington-streets,
FOR BOYS BETWEEN THE AGES OF SEVEN AND TWELVE YEARS.

THE superior pleasure derived from unfolding the infant mind; the flexibility of early youth; the force of first principles and habits; and the difficulty of correcting more advanced age, are the reasons which have induced the subscriber, to wish to confine his labors to so young a part of the community.
The advantages resulting from associating together, boys of nearly the same age, must, he conceives, be obvious to every one; therefore any number may be more effectually taught; greater emulation will be produced, and their morals rendered less liable to be corrupted.
The subscriber who has taught in some of the first academies in Great Britain, has, for the last twelve months, been engaged in a respectable female academy in this city; where, although his labors have been necessarily confined, yet he flatters himself, sufficient has been done to convince the public of his ability, for the proposed undertaking.
Parents desirous that their sons should complete their education at college, will here have an opportunity of having them early qualified for that purpose; as in this institution will be taught, in addition to other branches; the Latin and the elements of the Greek language, together with so much of Mathematical Science, as may be adapted to their tender capacities; but especially, care will be taken to make the youth read, write and speak the mother tongue with propriety, elegance and correctness.
A proper person will be engaged to teach the French language.
To illustrate the sciences of Geography and Astronomy, an elegant pair of Globes are procured; to which will be added Maps, Charts and appropriate Diagrams.
In order to make an amusement, rather than a toil of teaching, and to obviate the inconveniences attending crowded academies, in which a great part of the business must devolve on persons having only a secondary interest; it is determined that the number of pupils shall on no account whatever exceed twenty.
WILLIAM NIND,
Particulars may be known by applying at Messrs. Sower & Co's Book-store, No. 3, Light-street, next door to the Coffee-house; Mrs. Bacon's academy; Pratt-street; or at No. 48, South Charles-street.
In consequence of the encouragement which my proposals have already met with, I have determined to commence on **Monday**, the 31 of February, with such pupils as have already been entered, and such others as may come forward previously to that day.
