The Public

ARE respectfully informed, that there will be opened **THIS DAY**, the 15th May, the *Union Cheap Bread Manufactory*, No. 52, North Howard-street, three doors north of Lexington-Street, near the market, by WM. LOVELL, who has built two large ovens, where is sold, pound baked English bread, of the finest quality, on such terms never before offered in this city, and in order that the laboring men or those whose families or circumstances will not allow them to buy flour or large quantities of bread, can be supplied on as good terms as the opulent merchant, by the advertiser, who sells 24 ounces of sound baked bread for 5 cents, 3 pounds for 10 cents, and 6 pounds for 20 cents, that being cheaper than is possible for any family to bake it, allowing that servant's time, yeast and salt cost nothing, which never would be done by any family, could they be supplied with that useful article of a superior quality baked on the hearth of the oven. It is too general in this place for bread to be raised by art and baked on tins, which must be eaten the same day, as it gets harsh and stale in twelve hours. It is allowed by physicians of the first eminence in London, to be unwholesome, and must be allowed by the ladies and gentlemen generally to be unprofitable, for example let 6 persons for 7 days use small loaves, such as are generally sold here, five for 25 cents, then let the same number use six-pound loaves baked one day, they will find a saving of one fourth; in this kind of bread will keep 7 days if kept in an earthen pan, in a cold dry place, being free from all kind of adulteration.

Is baked, bread made of half Rye and half superfine Flour, large in proportion. Any person wishing not to be troubled with baking, may by sending their flour receive an equal weight in English bread, free of any charge for baking; superfine flour sold at 4 cents a pound. Taverns, boarding houses, schools, and large institutions, will find it their interest in buying this kind of bread, in preference to baking themselves. Families supplied in any part of the city and suburbs. The above prices are, cash, except where stated credits are agreed on, and those must be regular as the profits are small.

A regular supply of Biscuits and Crackers will be kept in a few days from this date.

BE it remembered, that on the twenty-fifth day of March, in the thirtieth year of the Independence of the United States of America, Edward Pember, of said district, hath deposited in this office the title of a print, the right whereof he claims as proprietor, in the words and figures following, to wit, "A complete view of the town and harbor of Tripoli, with the relative positions of our frigates, sloops of war, and gun-boats, together with their names and those of their respective commanders, who on the 3d day of August, 1804, so gloriously supported the character of American Seamen, for valor and tactics, and who under Commodore Preble, so conspicuously aided in the liberation of their beloved countrymen from the galling yoke of Barbarian power." The Subscriber,

TO save the trouble of particular communications, to those gentlemen in the different quarters of the state, who have been so kind as to take charge of subscription papers for the work in which he engaged, on land affairs, takes this method of notifying them, that the undertaking is in such forwardness, as to require that his dispositions for publication should be conclusively settled by the end of August next. As the general approbation and encouragement which this design has received, leave but little doubt of his obtaining a moderate compensation for his labor, he does not mean to hazard much for the possibility of greater advantage, but intends to limit the number of copies to be printed, very nearly to that of the subscriptions which shall have been received by the period above-mentioned. He therefore respectfully requests those gentlemen, to forward to him, in the course of the said month of August, either the subscription papers in their hands, or transcripts of the signatures thereon, (the latter in preference, where there may still remain an expectation of augmenting the lists) and that, in the mean time, they would take all convenient means of announcing and explaining the undertaking to their fellow-citizens, in order that he may be enabled, with some degree of exactness, to ascertain and provide for the real demand for the work.
