Family Guide,
TO AVOID INFECTIOUS DISEASES.
FOR PUBLISHING BY SUBSCRIPTION.
ON THE DISCOVERY OF A SPECIFIC FOR THE CURE AND PREVENTION OF THE Yellow Malignant Fever, AND DISORDERS OF THE BILLIOUS, PUTRID AND MALIGNANT KIND.
By DR. JOHN J. GIRAUD.

The basis of the specific remedy, is simply Soap—universally acknowledged to be a great preserver of health. That without the use of soap, there can be no cleanliness, and without cleanliness no health, admits of no doubt. Soap has been acknowledged in medicine, for many centuries past, to be a powerful mitigator of the bile, and an antidote containing a most sovereign antiputrescent quality, which has been confirmed by a long series of success; and by a well-tried experience, it possesses an eminent antivenereal virtue, which renders it wonder in all every, and diseases produced by the venereal and venereal bile.

CONTENTS.
1. A new method of treatment for the Yellow Fever, adapted to the capacity of every one.
2. The receipt to compose the specific remedy.
3. The use of it as a preventive of the disease.
4. A list of cures effected by the use of it in various epidemics.
5. The treatment adapted to Billious, Putrid and Malignant Fevers, Colics, and other affections of the same nature, and those which are produced by an obstructed perspiration.
6. The means of preserving health in the critical season of summer.
7. An address to the public, with a view to guard them against the dangerous and common abuse of some generally adopted, as well to prevent sickness, as to cure it. This advice is of the last importance, because it corrects a popular opinion often productive of injurious consequences.
8. On disorders the most prevalent and fatal among children. A dissertation on the Croup followed by a new method equally secure and easy for curing it. And also, on the means to prevent and cure the Cholera Infantum. This will render the treatise of inestimable utility, as well to private families in town, as to those in the country, removed from the succors and assistance which the faculty usually afford.
9. On the necessity of assistance promptly administered in the Yellow Fever; without which there follows a total dissolution of our fluids, which nothing can stop. And this will more forcibly evince the advantages of a remedy easy to be found, prepared and taken, which exposes to no danger of containing the sure means of preventing the disorder in the pre-disposition to it, and of removing it after it has made its appearance.

No person of sense, father of a family, or other person, can be indifferent to the use of a similar remedy, which assures his well being and that of his children and neighbors.

CONDITIONS.
1. The work shall be put to press with all possible speed.
2. It shall be handsomely printed in one volume octavo, on good paper, and will be delivered to subscribers next by bound, at 2 dollars and 50 cents each copy, payable on delivery.
3. At present the number of pages that the work will contain, cannot be ascertained, the probability is it will exceed three hundred.
4. Proposals for receiving subscriptions, are left with the principal booksellers in Baltimore.
5. Printers of newspapers who choose to obtain subscribers to the foregoing work, are requested to give the proposal a few insertions in their paper. They will be allowed a discount of 20 per cent. on as many copies as they may see proper to take.
6. Of upwards of 141 persons cured by means of this remedy, in only one epidemic, I have obtained and published the certificates of more than 100, and with a view to establish and prove the period of my discovery, and in my work I will make mention of a great number cured in this manner in other epidemics. For the details of this see the American and Evening Post of June 12, 1806.

She is between 25 and 30 years of age, high cheek bones, and is rather over the middle size; she has lived in or near Frederickburg, to which place she was brought (as the subscriber has been informed) from the state of Maryland, by Col. John F. Mercer. Her mother lives in Baltimore, and it is believed that her intention is to get to that place. The above reward, and all reasonable charges will be paid, on delivering her to me, in Staunton, Augusta county, Virginia, if she is taken out of said county, or ten dollars for securing her in any jail so that I get her again; and ten dollars with reasonable charges, if taken within the county of Augusta.

Su pher and York Springs.
THE subscriber begs leave respectfully to inform the ladies and gentlemen of the city of Baltimore, and the state of Maryland generally, that he has taken and completely fitted up for their accommodation, those well known Sulpher or York Springs, lying in Adam's county, in the state of Pennsylvania, about 60 miles from Baltimore, 14 from Carlisle, and 10 from Gettysburg, the county town of said county. The beneficial effects so often experienced from the use of those waters, so much celebrated in the removal of various complaints, incident to the human frame; such as Rheumatic, Billious affections, &c. &c. of which the most ample and satisfactory testimony can be given. The numerous and effectual cures produced thereby have been experienced by thousands who have heretofore visited those springs are reasons that induce the proprietor to believe any further descriptions unnecessary; suffice it to say, that the situation, independent of the qualities and properties of the water, in removing complaints and restoring health, is equal if not superior to any in the U. States, as an agreeable and pleasant retreat during the summer season, and a fine society from almost all parts of the continent. And he flatters himself from the extreme pains he has taken in preparing accommodations, together with the moderation of his charges, he cannot fail in giving satisfaction. Gentlemen and their families can be accommodated in an elegant private house, fitted up by Mr. Isaac Walt for that purpose; in short every thing in his power shall be done to please.
A line of Stages will run from the house of Mr. Hostetter, North Howard-street, Baltimore, to the Springs, twice every week during the season, for the convenience of those chusing that mode of travelling—the charges also reasonable.
The public's most obedient servant,
NIMROD MAXWELL.
