*Followed by a Dissertation on the Cholera Infantum, the Cholera Tracheitis, or Group, and a new Method for the certain cure of it*  
 ADAPTED TO PERSONS OF EVERY CAPACITY  
 Addressed to the citizens of the United States of America  
 By Dr. JOHN J. GIRAUD.

The basis of the specific remedy, is simply Soap—universally acknowledged to be a great preserver of health. That without the use of soap, there can be no cleanliness, and without cleanliness no health, admits of no doubt. Soap has been acknowledged in medicine, for many centuries past, to be a powerful mitigator of the bile, and an antidote containing a most sovereign antipestiferous quality, which has been confirmed by a long series of success; and by a well tried experience, it possesses an eminent antibilious virtue, which renders it wonderful in all fevers, and diseases produced by a fermented and acrid bile.

**CONTENTS.**  
 Article 1. Of the Yellow Fever in general.  
 2. A new method of treatment for the Yellow Fever, adapted to the capacity of every one.  
 3. The receipt to compose the specific remedy.  
 4. The use of it as a preventive of the disease.  
 5. A list of cures effected by the use of it in various epidemics.  
 6. The treatment adapted to Bilious, Puritid and Malignant Fevers, Colics, and other affections of the same nature, and those which are produced by an obstructed perspiration.  
 7. The means of preserving health in the critical season of summer.  
 8. An address to the public, with a view to guard them against the dangerous and common abuse of some means generally adopted, as well to prevent sickness, as to cure it. This address is of the last importance, because it corrects a popular opinion often productive of injurious consequences.  
 9. On disorders the most prevalent and fatal among children. A dissertation on the Cholera followed by a new method equally secure and easy for curing it. And also, on the means to prevent and cure the Cholera Infantum. This will render the treatment of inestimable utility, as well to private families in town, as to those in the country, removed from the succors and assistance which the faculty usually afford.  
 10. Lastly, will be proved to demonstration, the necessity of assistance promptly administered in the Yellow Fever; without which there follows a total dissolution of our fluids, which nothing can stop. And this will more forcibly evince the advantages of a remedy easy to be found, prepared and taken, which exposes to no danger and containing the sure means of preventing the disorder in the predisposition to it, and of removing it after it has made its appearance.

No person of sense, father of a family, or other person, can be indifferent to the use of a similar remedy, which assures his well being and that of his children and neighbors.  
**CONDITIONS.**  
 1. The work shall be put to press with all possible speed.  
 2. It shall be handsomely printed in one volume octavo, on good paper, and will be delivered to subscribers nearly bound, at 2 dollars and 50 cents each copy, payable on delivery.  
 3. At present the number of pages that the work will contain, cannot be ascertained, the probability is it will exceed three hundred.  
 4. Proposals for giving subscriptions, are left with the principal booksellers in Baltimore.  
 5. Printers of newspapers who choose to obtain subscribers to the foregoing work, are requested to give the printer a few insertions in their paper. They will be allowed a discount of 20 per cent. on as many copies as they may see proper to take.  
 6. Of 141 persons cured by means of this remedy, in one epidemic, I have obtained and published the certificates of more than 100, merely with a view to establish and prove the efficacy of my medicine; and in my work I will make mention of a great number cured in like manner in other epidemics. For the details of this, see the American and Evening Post of June 13, 1836.
