Bank nominations, like a flood, overwhelm our office-and to prevent them from overwhelming the patience of our readers, we will endeavor to make them pass through our columns as gently as possible; but, it they should force their way in greater torrents, we will furnish an extra channel to give them circulation. It will be observed, when ordered in more than once they must be paid for.

Health of the City. - As a report is travelling through the country that the Yellow Fever has already commenced its | ravages in our city, and that fifteen or twenty persons are daily falling victims to that afflicting scourge, we deem it proper to state, for the miormation of distant readers, that New York was never more is at the present moment. The number of deaths which occurred last week (28 only) timore: is considerably less than the number generally reported for the same length of time in any part of the whiter or spring. We do not believe that a case of yellow fever does exist, or has existed, in our city time scaroli.

We learn that the Senate have accepted the report of the Committee upon the accounts of the Attorney, General. So that Mr. Sullivan stands acquitted by the Legislature in all his concerns with the State. We/should not be surprised to hear, that this was declared to be no proof. We must leave this evidence with our sellow citizens.

Sulphur or Owings's Spring.

HE subscriber respectfully informs the Ladies and Gentlemen of the city of Baltimore, that the Spring, of which the late John O sings was the proprietor, is now carried on

and superintended by himself. This Spring, well known by the name of "Owings's Spring," is situated between five and six miles from Baltimore, with an excellent cargiage road, and an inviting shade, after

noon, the whole way from the city. None who have tasted of this Spring are willing to question its virtues, so numerous have been the cures it has effected. Where a surcharge of acrimony of bile, general debilia ty from weak stomach, or gradual decay from other than consump ive causes, have presed upon the system, this water has been found truly efficacious, and never failing to benefit individuals who resort to it is a certain antidote to bile. It has proved itself so powerful a tonic, that stomache nauseating all kinds of sustanance for weeks, have been so effects fly restored and strengthened, as not only to relising but cat with avidity whatever is placed before them. In short, all who frequent the Spring,

can readily testify to its virtuous qualities. Good accommodations may be had for gentlemen and their families, and every exertion shall be made to afford general satisfaction. CALEB OWINGS.
