Family Guide,
TO AVOID INFECTIOUS DISEASES. PROPOSAL FOR PUBLISHING BY SUBSCRIPTION, A NEW WORK, ON THE DISCOVERY OF A SPECIFIC FOR THE CURE AND PREVENTION OF *The Yellow Malignant Fever, AND DISORDERS OF THE BILIOUS, PUTRID AND MALIGNANT KIND.*

Addressed to the citizens of the United States of America
By Dr. JOHN J. GIRAUD.
The basis of the specific remedy, is simply Soap—universally acknowledged to be a great preserver of health. That without the use of soap, there can be no cleanliness, and without cleanliness no health, admits of no doubt. Soap has been acknowledged in medicine, for many centuries past, to be a powerful mitigator of the bile, and an antidote containing a most sovereign antipestilential quality, which has been confirmed by a long series of success; and by a welltried experience, it possesses an eminent antibilious virtue, which renders it wonderful in all fevers, and diseases produced by a fermented and acid bile.
CONTENTS.
Article 1. Of the Yellow Fever in general.
2. A new method of treatment for the Yellow Fever, adapted to the capacity of every one.
3. The receipt to compose the specific remedy.
4. The use of it as a preventive of the disease.
5. A list of cures effected by the use of it in divers epidemics.
6. The treatment adapted to Billious, Putrid and Malignant Fevers, Colics, and other affections of the same nature, and those which are produced by an obstrucd perspiration.
7. The means of preserving health in the critical season of summer.
8. An address to the public, with a view to guard them against the dangerous and common abuse of some means generally adopt d, as well to prevent sickness, as to cure it. This advice is of the last importance, because it corrects a popular opinion often productive of injurious consequences.
9. On Disorders the most prevalent and fatal among children. A dissertation on the *Croup* followed by a new method equally secure and easy for curing it. And also, on the means to prevent and cure the *Cholera Infantum*. This will render the treatise of inestimable utility, as well to private families in town, as to those in the country, removed from the succors and assistance which the faculty usually afford.
10. Lastly, will be proved to demonstration, the necessity of assistance promptly administered in the Yellow Fever; without which there follows a total dissolution of our fluids, which nothing can stop. And this will more forcibly evince the advantages of a remedy easy to be found, prepared and taken, which exposes to no danger and containing the sure means of preventing the disorder in the pre-disposition to it, and of removing it after it has made its appearance.
No person of sense, father of a family, or other person, can be indiffernt to the use of a similar remedy, which assures his well being and that of his children and neighbors.

COPYRIGHT
1. The work shall be put to press with all possible speed.
It shall be handsomely printed in one volume octavo, on good paper, and will be delivered to subscribers neatly bound, at 2 dollars and 50 cents each copy, payable on delivery.
At present the number of pages that the work will contain, cannot be ascertained, the probability is that it will exceed three hundred.
Proposals for receiving subscriptions, are left with the principal booksellers in Baltimore.
Printers of newspapers who choose to obtain subscribers to the foregoing work, are requested to give the proposal a few insertions in their paper.—They will be allowed a discount of 20 per cent. on as many copies as they may see proper to take.
Of upwards of 141 persons cured by means of this remedy, in only one epidemic, I have obtained and published the certificates of more than 160, merely with a view to establish and prove the period of my discovery; and in my work I will make mention of a great number cured in like manner in other epidemics. For the details of this, see the *American and Evening Post* of June 12, 1806.
