EXCEPT the dissemination of sound principles of morality & religion, nothing affords so much pleasure to the expanded mind, as the progress of literature and scientific knowledge. The conspicuous munificence of the citizens of Baltimore in patronizing every literary institution is highly honorable to themselves and it will be productive of the most important moral and literary advantages to the rising generation.

The merchants of the United States need to be under no apprehensions of their vessels being molested by any Dutch privateers, if any existing, neither do they want any particular pass or protection against them.

From the Jamaica Royal Gazette, July 12. MIRANDA.—We are credibly informed that on the first arrival of General Miranda at Barbadoes, Lord Scaforth, not having had any intelligence but from mere report of the nature of his expedition, supposed having him taken into custody, conceiving (as it did not appear Great Britain had any knowledge of the transaction) that he might endeavour to revolutionize any country suitable to his purpose, as well as the Spanish colonies.

PARIS June 3. We have received London papers to the 14th May. The last debates in parliament are remarkable only for the complaints almost universally raised against the abuses which have crept into the financial administration of the war and navy departments.

It must be observed that these complaints bear none of the marks of those accusations usually brought forward by members of the opposition who wish to distinguish themselves, or to thrust themselves into the places of ministers. Here it is the Chancellor of the exchequer himself who reveals the abuses and avows the critical situation of affairs.

According to the Spanish Gazettes, it appears that intelligence had lately been received in Spain from the different Spanish possessions in the new world. At the time of the last dispatches from thence the most perfect tranquility prevailed in the island of Cuba and throughout all the Mexican provinces.

INFALLIBLE AGUE AND FEVER DROPS, For the cure of Agues, Remittent and Intermittent Fevers. Never was a medicine offered, that has a greater claim to public approbation than this, as many thousands can testify. It would be needless to expatiate largely on the extraordinary virtues of these Drops, it being the generally received opinion that if taken regularly, and according to the directions, it is the most efficacious medicine in the known world.

much are frequently lost for want of a more easy and pleasant remedy. Philadelph. May 22, 1806. TO MRS. LEE. MADAM—Having in a most singular manner experienced in my family the astonishing efficacy of Hamilton's Worm-Destroying Lozenges, prepared by the late Mr. Lee, I feel it my duty to add the following curious case to the list of remarkable cures performed by that celebrated medicine. My daughter at the age of 17 months was taken ill with those symptoms which are supposed to denote worms; after having tried a number of things (which are said to be good in such cases) without any benefit, we had the attendance of a respectable physician; but she still continued to decline in health, and at the end of six months became so weak that she could not walk, nor keep food on her stomach, it was so extremely disordered. At this interesting period, one of our neighbors recommended your Lozenges so earnestly, we were induced to send to Mr. Bircan's for a box of them; on her taking a third dose, according to the printed directions, there came from her a living animal about three quarters of an inch long, and of a most frightful appearance, being very white, with a great number of legs, and something which resembled wings, by which it appeared to spring, and which it did repeatedly (to our great surprise) about the same distance that a small load can hop on the ground. Its form was altogether unknown to every person who saw it. It lived (in water) about 18 hours. We afterwards put it in spirits, and it is now in the possession of Dr. Blight, of this city. The child grew better from that day; in a very short period began to walk again, and is now in perfect health.

HAMILTON'S WORM-DESTROYING LOZENGES. (There is reason to believe) have within 7 years past, cured upwards of Two Hundred Thousand persons, of both sexes, of every age, and in every situation, of various dangerous complaints arising from WORMS, and from obstructions or fulness in the stomach & bowels.

Among the symptoms attending worms, are disagreeable breath, especially in the morning; bad and corrupted gums—itching in the nose, and about the seat—convulsions and epileptic fits, and sometimes privation of speech—startling and grinding of the teeth in sleep—irregular appetite, sometimes a loathing food, & sometimes voracious—purging with slimy and foetid stools—vomiting—large and hard belly—pains and sickness of the stomach—pains in head and thighs, with looseness of spirits—slow fever, with small and irregular pulse—a dry cough—excessive thirst—sometimes pale and unhealthy countenance, and sometimes the face bloated and flushed.

A dose of this medicine given occasionally during the warm season, will effectually prevent vomiting and purging of children, a dreadful disorder, which annually destroys thousands of the infant part of our citizens. It is likewise the mildest and most certain remedy known, and has restored to health and strength a great number when in an advanced stage of the fatal complaint. Particular and plain instructions are given for every part of the necessary treatment in such cases.

August 21. 100 Dollars Reward, An attempt was made, last evening, to set fire to a new house, in an unfinished state, in Pratt-street, next to the corner of Sharp-street.
