THE WIDOW

OF THE LATE RICHARD LEE, JUNIOR,

D ESPECTFULLY informs the public, that In her husband at the time of his death was sole proprietor of the undermentioned celebrated FAMILY MEDICINES, and that she continues to have them faithfully prepared according to the original recipes, which are in her possession. This public notice is rendered necessary by imitations of them having been lately advertised for sale in New York and other places, and also by a report having been widely circulated of my having declined the business. Effectually to counteract such upprincipled attempts, I wish the public to be informed that my friends purchased for me, at the late public sale of my husband's moveable property, all the large stock of Medicines then on hand, and all the necessary apparatus for preparing them-It being then and now my firm determination to continue the business for the benefit of myself and children. With this intention I have appointed Mr JAMES HAN-NA, No. 102, Market street, my wholesale and retail vender for the city of Baltimore; and Mr. BENJAMIN WILSON, opposite the Market, Fell's Point, at which two places they may be had genuine, and no where else in Baltimore. The genuine Medicines have on the outside wrappers the signature of HANNAH LEE.

Please to observe that the Agency is removed from Warner & Hanna's, to James Hanna's, druggist, No 102, Market-street. Hamilton's Worm-Destroying Lozenges, Hahn's Anti-Bilious Pills, Hamilton's Elixir,

Do. Grand Restorative, Essence an Extract of Mustard, Do. Sovereign Ointment for the Itch, Infallible Ague and Fever Drops, Indian Vegetable Specific,

Damask Lip-Salve, Restorative I ooth-Powder, Hahn's German Eye-Water.

INFALLIBLE AGUE AND FEVER DROPS,

For the cure of Agues, Remittent and Intermittent Fevers.

Never was a medicine offered, that has a greater claim to public approbation than this, as many thousands can testify. It would be needless to exputiate largely on the extraordinary virtues of these Drops, it being the gene rally received opinion that if taken regularly, and according to the directions, it is the most efficacious medicine in the known world, for the AGUE and intermittent FEVER. Thousands can testify of their being cured by these Drops, after the bark and every other medicine have proved ineffectual. Not one in a handred has had occasion to take more than one, and numbers not half a bottle

These Drops are particularly recommended to the inhabitants of low, marshy countries witere the worst sort of AGUES generally prevail: which, unless early attended to, and speedily removed, injure the constitution exexedingly, and bring on dropsics, putrid fevers, and a variety of complaints of the most dangerous and alarming nature. Many other meditines are daily offered to the public-for-thecure of this disorder, which upon trial have keen found either dangerous or useless. The tark is the usual remedy made use of, but being a very nauscous medicine, and seldom taken in sufficient quantity, it very often fails; sed children and those who have weak sto. machs are frequently lost for want of a more tasy and pleasant remedy.

Philadelphia, May 22, 1806.

TO MRS. LEE.

MADAM-Having in a most singular manner esperienced in my family the astonishing efficicy of Hamilton's Worm Destroying Lozenges, prepared by the late air Lee, I feel it my duty to add the following curious case to the list of remarkable cures performed by that celebrated medicine. . My daughter at the age of 17 mouths was taken ill with those symptoms which are supposed to denote worms; after being tried a number of things (which are said to be goo in such cases) without any benufft, we had the attendance of a respectabl: physician; but she still continued to decline in health, and at the end of six months become so weak that she could not walk, nor keep foo l on ber stomach, it was so extremely disorder. ed. At this interesting period, one of our pelghbors recommended your Lozenges so ear! nertly, we were induced to send to Mr. Birch's formbox of them; on her taking a thi d dose according to the printed directions, there came from her a living animal about three quarters of an inch long, and of a most frightful appegrance, being very white, with a great numbefor legs, and something which resembled mings, by which it appeared to spring, and which it did repeatedly (to our great surprise) about the same nistance that a small toad can hog on the ground. Its form was altogether unknown to every person who saw it. It lived (in water) about 18 hours. We afterwards put it in spirits, and it is now in the possession of Dr. Bleight, of this city. The child grew better from that day, i in a very short period began to walk again, and is now in perfect

Any person may be satisfied of the accuracy and mulienticity of this singular occurrence, by making unquiry in the neighborhood a many of the heighbors saw, the creature alive, and are well acquainted with the above particulars.
