

time the Spanish frigate's boats had great communication on shore, & we learnt were landing money which they had brought from the Gulf of Mexico. At twenty-four minutes past 10, the two English frigates bore down towards the battery under which the Spanish force had formed a line. At forty minutes past 10, the Spanish gun-boats opened a heavy fire upon the headmost English frigate, which was soon followed by the frigate and battery. At fifty-two minutes past 10, the Arethusa, who led the van of the English, opened a heavy and well-directed fire upon the Spanish line. At fifty-seven minutes past 10, the sternmost English frigate came up and commenced a tremendous fire upon the Spanish frigate, which soon occasioned her to strike her colors—she stood the fire of the British fifteen minutes. Two of the gun-boats were blown up, five were sunk, and three were driven on shore. The frigates then let go their anchors and silenced the fort. They manned their prize at half past 1, P. M. cut her cables, got her out, and hauled off to repair damages. The Anson soon after fired two shot at us, brought us to, and ordered us under the commodore's stern, which we obeyed. He ordered our boat out, and desired the captain to come on board with his papers. The Arethusa supplied us with a butt of water, and sundry other necessaries, and otherwise treated us with every degree of politeness—they then gave us liberty to proceed, but not to go into any Spanish port. The Arethusa, captain Brisbane, had two men killed and ten wounded; the Anson, capt. Ledyard, none. The Spanish frigate La Pona, 40 guns, had her captain killed—and it is believed that two hundred Spaniards were destroyed in the action.

The subscriber
BEGS leave to lay before the public, the proposals of the Phoenix Assurance Company of London, for the purpose of insuring Houses, and Property against Fire: the very moderate terms on which insurance may be effected, it is hoped will prove an inducement to insure generally.—A discretionary power is vested in me, to relax a little from the rates now published, where the situation of the property, or other circumstances are peculiarly favorable.—Orders lodged at the Office of the Company in Second-street, will be promptly attended to.
DAVID STEWART, Agent for
The Phoenix Fire Company of London.

PROPOSALS
FROM THE
PHOENIX COMPANY OF LONDON
For insuring Houses, Buildings, Stores, Ships in Harbour, Goods, Wares, and Merchandise,
FROM LOSS OR DAMAGE BY FIRE.
Insurance from loss or damage by FIRE hath been found a measure of great importance to the happiness of families, and has given additional security to commercial transactions.—The distinguished approbation with which the public throughout Great Britain re-

ceived the improved system of this office, occasioned frequent application for the insurance of property in the principal cities and towns in Europe and America, and induced the company many years since to extend their plan to the continents of Europe and America, and to the West India Islands. The Phoenix Company can refer to the unerring test of experience to ascertain their character; and, gratified by the unbounded confidence they have obtained, and for the purpose of facilitating to the inhabitants the means of effecting insurance on their property, the directors have lately determined to extend the sum which they have been accustomed to insure in any single risk, and have arranged rates of premium upon the various descriptions of property which they trust, will be found moderate, just, and equitable.—The promptitude with which this office has adjusted the claims of sufferers, and the solidity of its funds, are so well known, that it is unnecessary to offer more on the subject, than to refer those who desire information, to the merchants of London with whom they correspond.

In this Office no Insured person is liable to any call to make good the losses of others; but in case of Fire, the sufferer will be fully indemnified by the Company.—The Company also make good losses on property burnt by lightning.

Rates of annual premiums to be paid for Assurance against Fire.

Fire Insurance.
THE SUBSCRIBER HAVING RECEIVED POWERS AND INSTRUCTIONS FROM THE
PHOENIX COMPANY OF LONDON,
Is fully authorized to effect insurance on Houses, Buildings, Stores, Ships in Harbor, Goods, Wares, and Merchandise, in any part of the state of Maryland,
FROM LOSS OR DAMAGE BY FIRE.
On terms so moderate, as will, it is presumed, make it the interest of all to resort to a measure so well calculated to give additional security to commercial transactions, and to afford protection from the injury which Fires have so often occasioned.
In this Office, no insured person is liable to any call to make good the losses of others; but in case of Fire, the sufferer will be fully indemnified with that liberality and promptness which have always distinguished this Company; requiring no other delay (even where presumption of fraud appears) than is necessary to distinguish the honest sufferer from the fraudulent incendiary.
As a proof of the usefulness of this Institution, and the benefit that individuals have derived from it, it is only necessary to state, that since the commencement of the Office, in 1782, near SEVEN MILLIONS OF DOLLARS have been paid to claimants upon their Policies.
The following is published for the information of those who reside at a distance.
CONDITIONS OF INSURANCE.
I. PERSONS desirous to make insurance on BUILDINGS, are to deliver in to the Agent the following particulars, viz.—Of what materials the walls and roof of each building are constructed, as well as the construction of the buildings contiguous thereto—whether the same are occupied as private dwellings, or how otherwise—where situated—also, the name or names of the present occupiers.
Each building must be separately valued, and a specified sum insured thereon—and in like manner a separate sum insured on the property contained therein.
All manufactories which contain furnaces, kilns, stoves, coakles, ovens, or otherwise use fire-heat, are chargeable at additional rates.
In the insurance of GOODS, WARES, or MERCHANDISE, the building or place in which the same are deposited, is to be described; also whether such goods are of the kinds denominated hazardous, and whether any manufactory is carried on in the premises.—And if any person or persons shall insure, his or their buildings or goods, and shall incur the same to be described in the policy otherwise than as they

really are, so as the same be charged at a lower premium than would be demanded if the true situation or quality of the buildings or goods were made known, such insurance shall be of no force.

II. Goods held in trust, or on commission, are to be insured as such, otherwise the policy will not extend to cover such property.

III. No loss or damage to be paid on fire happening by any invasion, foreign enemy, civil commotion, riot, or any military or usurped power whatever, nor for damage done by fire occasioned by earthquakes or hurricanes; but this company will make good losses on property burnt by lightning.

IV. Books of accounts, written securities, bills, bonds, tallies, and ready money, cannot be insured.

V. Jewels, plate, medals, or other curiosities, paintings and sculptures, are not included in any insurance, unless such articles are specified in the policy.

VI. Persons insuring property at this office, must give notice of any other insurance made elsewhere on their behalf on the same, and cause such other insurance to be endorsed on their policies; in which case each office shall be liable to the payment only of a rateable proportion of any loss or damage which may be sustained; and unless such notice is given, the insured will not be entitled to recover in case of loss.

VII. No order for insurance will be of any force, unless the premium is paid to the agent, or unless a sum has been advanced, and the agent has delivered his receipt on account of the office; and all persons desirous to continue their insurances, must make their future payments annually within fifteen days after the day limited by their respective policies, or the same will be void.

VIII. All persons assured by this company, sustaining any loss or damage by fire, are forthwith to give notice to the company's agent, and as soon as possible after, to deliver in as particular account of their loss or damage, signed with their own hands, as the nature of the case will admit of, and make proof of the same by their oath or affirmation, and by their books of accounts, or other proper vouchers, as shall be reasonably required; and shall procure a certificate, under the hand of a magistrate or sworn notary of the city or district in which the fire happened, that they are acquainted with the character and circumstances of the person or persons insured, and do know, or verily believe, that he, she, or they, really, and by misfortune, without any kind of fraud or evil practice, have sustained by such fire, loss and damage to the amount therein mentioned; and, until such affidavit and certificates are produced, the loss money shall not be payable; also, if there appears any fraud or false swearing, the claimant shall forfeit his claim to restitution or payment, by virtue of his policy.

IX. In case any difference or dispute shall arise between the assured and the company, touching any loss or damage, such difference may be submitted to the judgment and determination of arbitrators indifferently chosen, whose award in writing shall be conclusive and binding to all parties. And when any loss or damage shall have been duly proved, the insured shall receive satisfaction, to the full amount hereof, without allowance of any discount, fees, or other deduction whatever.

X. Persons choosing to insure for seven years, will be charged for six years only; also, for a less number of years than seven, will be allowed a reasonable discount.

Pitch, Tar, Turpentine, Saltpetre, Flax, Hemp, Oils, and Tallow, are deemed hazardous goods: Tallow-melters, Soap makers, Brewers, Dealers in Spirituous Liquors, Vinegar and Sweet-makers, Hemp and Flax-dressers, Printing-houses, Coopers, Capenters, Cabinet-makers, Coach-makers, Malt-houses, Bakers, Ship-chandlers, Boat-builders, Rope-makers, Sugar-refiners, Distillers, Chymists, Varnish-makers, Turpentine-works, Theatres, and all Mills and Machinery, are deemed extra-hazardous, and the rate upon such risks will be proportionally increased.

Ships in port, and their cargoes; ships building or repairing; also barges, and other small craft, with goods on board, may be insured against fire, at 75 cents for one year—45 cents for six months, and 37 1-2 cents for three months per 100 dollars.

Barns, Stables, Hay and grain contained in them, or in stacks or ricks, and live stock, will be insured at such premium as may be agreed on.

The rates on buildings, (and on property contained in them) depend so much on the materials of which they are constructed, the purposes for which they are used, and the situation with respect to other buildings that may be deemed hazardous, that particular attention is requested to these circumstances in the orders for insurance.

In cases requiring a Surveyor's report, or plan of the buildings, where there are several, showing their situation with respect to each other and to other buildings, such survey or plan must be furnished by the Assured, or at his expence; but, where a clear description of the property can be given, of which the Agent must be the judge, they may be dispensed with. The Assured is subject to no charge or expence in this Office, except 50 cents for the Policy.

In stating the sums for which insurance may be requested on any property, it should be recollected that indemnity only is the object of insurance against Fire, and that benefit, or expected profit or advantage, beyond a just estimate of the value of the property destroyed, is against the principles of the contract.
Orders left at the Marine Insurance Office, in Second-street, will be attended to.
DAVID STEWART,
Agent for the Phoenix Assurance Company of London.
