The Subscriber

BEGS leave to lay before the public, the proposals of the Phoenix Assurance Company of London, for the purpose of insuring Houses, and Property against Fire: the very moderate terms on which insurance may be effected, it is hoped will prove an inducement to insure generally.

DAVID STEWART, Agent for The Phoenix Fire Company of London.

PROPOSALS

FROM THE PHOENIX COMPANY OF LONDON For insuring Houses, Warehouses, Stores, Ships in Harbour, Goods, Wares, and Merchandise.

TROM LOSS OR DAMAGE BY FIRE

INSURANCE from loss or damage by FIRE hath been found a measure of great importance to the happiness of families, and has given additional security to commercial transactions.

In this Office no insured person is liable to any call to make good the losses of others; but in case of Fire, the sufferer will be fully indemnified with that liberality and promptness which have always distinguished this Company.

Notes of annual premiums to be paid for Assurance against Fire.

Hazards of the First Class, viz. Brick or Stone Buildings, covered with Tiles, Slate, or Metal.

Hazards of the Second Class, viz. Buildings having the Four Walls entirely of Brick or Stone, covered through the Roof, and covered with boards, or shingles.

Hazards of the Third Class, viz. Buildings constructed partly with Brick or Stone and partly with Wood; or having either of the Four Walls of Frame Work filled in with Brick.

Hazards of the Fourth Class, viz. Timber or Shanty Buildings covered with Shingles, or Boards.

Hazards of the Fifth Class, viz. Buildings having the Four Walls of Frame Work filled in with Brick.

Hazards of the Sixth Class, viz. Buildings having the Four Walls of Frame Work filled in with Brick.

Hazards of the Seventh Class, viz. Buildings having the Four Walls of Frame Work filled in with Brick.

Hazards of the Eighth Class, viz. Buildings having the Four Walls of Frame Work filled in with Brick.

Hazards of the Ninth Class, viz. Buildings having the Four Walls of Frame Work filled in with Brick.

Hazards of the Tenth Class, viz. Buildings having the Four Walls of Frame Work filled in with Brick.

Hazards of the Eleventh Class, viz. Buildings having the Four Walls of Frame Work filled in with Brick.

Hazards of the Twelfth Class, viz. Buildings having the Four Walls of Frame Work filled in with Brick.

Hazards of the Thirteenth Class, viz. Buildings having the Four Walls of Frame Work filled in with Brick.

Hazards of the Fourteenth Class, viz. Buildings having the Four Walls of Frame Work filled in with Brick.

Hazards of the Fifteenth Class, viz. Buildings having the Four Walls of Frame Work filled in with Brick.

Hazards of the Sixteenth Class, viz. Buildings having the Four Walls of Frame Work filled in with Brick.

Hazards of the Seventeenth Class, viz. Buildings having the Four Walls of Frame Work filled in with Brick.

Hazards of the Eighteenth Class, viz. Buildings having the Four Walls of Frame Work filled in with Brick.

Hazards of the Nineteenth Class, viz. Buildings having the Four Walls of Frame Work filled in with Brick.

In this Office, no insured person is liable to any call to make good the losses of others; but in case of Fire, the sufferer will be fully indemnified with that liberality and promptness which have always distinguished this Company.

As a proof of the usefulness of this Institution, and the benefit that individuals have derived from it, it is only necessary to state, that since the commencement of the Office, in 1782, near SEVEN MILLIONS OF DOLLARS have been paid to claimants upon their Policies.

Each building must be separately valued, and a specified sum insured thereon—and in like manner a separate sum insured on the property contained therein.

All manufactories which contain furnaces, kilns, stoves, coakles, ovens, or otherwise use fire-heat, are chargeable at additional rates.

In the insurance of GOODS, WARES, or MERCHANDISE, the building or place in which the same are deposited, is to be described; also whether such goods are of the kinds denominated hazardous, and whether any manufactory is carried on in the premises.

CONDITIONS OF INSURANCE. I. PERSONS desirous to make Insurance on BUILDINGS, are to deliver in to the Agent the following particulars, viz.—Of what materials the walls and roof of each building are constructed, as well as the construction of the buildings contiguous thereto—whether the same are occupied as private dwellings, or how otherwise—where situated—also, the name or names of the present occupiers.

II. Goods held in trust, or on commission, are to be insured as such, otherwise the policy will not extend to cover such property.

III. No loss or damage to be paid on fire happening by any invasion, foreign enemy, civil commotion, riot, or any military or usurped power whatever; nor for damage done by fire occasioned by earthquakes or hurricanes: but this company will make good losses on property burnt by lightning.

IV. Books of accounts, written securities, bills, bonds, tallies, and ready money, cannot be insured.

V. Jewels, plate, medals, or other curiosities, paintings and sculptures, are not included in any insurance, unless such articles are specified in the policy.

VI. Persons insuring property at this office, must give notice of any other insurance made elsewhere on their behalf on the same, and cause such other insurance to be endorsed on their policies; in which case each office shall be liable to the payment only of a rateable proportion of any loss or damage which may be sustained; and unless such notice is given, the insured will not be entitled to recover in case of loss.

VII. No order for insurance will be of any force, unless the premium is paid to the agent, or unless a sum has been advanced, and the agent has delivered his receipt on account of the office; and all persons desirous to continue their insurances, must make their future payments annually within fifteen days after the day limited by their respective policies, or the same will be void.

VIII. All persons assured by this company, sustaining any loss or damage by fire, are forthwith to give notice to the company's agent, and as soon as possible after, to deliver in as particular account of their loss or damage, signed with their own hands, as the nature of the case will admit of, and make proof of the same by their oath or affirmation, and by their books of accounts, or other proper vouchers, as shall be reasonably required; and shall procure a certificate, under the hand of a magistrate or sworn notary of the city or district in which the fire happened, that they are acquainted with the character and circumstances of the person or persons insured, and do know, or verily believe, that he, she, or they, really, and by misfortune, without any kind of fraud or evil practice, have sustained by such fire, loss and damage to the amount therein mentioned; and, until such affidavit and certificates are produced, the loss money shall not be payable; also, if there appears any fraud or false swearing, the claimant shall forfeit his claim to restitution or payment, by virtue of his policy.

IX. In case any difference or dispute shall arise between the assured and the company, touching any loss or damage, such difference may be submitted to the judgment and determination of arbitrators indifferently chosen, whose award in writing shall be conclusive and binding to all parties. And when any loss or damage shall have been duly proved, the insured shall receive satisfaction, to the full amount hereof, without allowance of any discount, fees, or other deduction whatever.

X. Persons choosing to insure for seven years, will be charged for six years only; also, for a less number of years than seven, will be allowed a reasonable discount.

Pitch, Tar, Turpentine, Saltpetre, Flax, Hemp, Oils, and Tallow, are deemed hazardous goods; Tallow-melters, Soap-makers, Brewers, Dealers in Spirituous Liquors, Vinegar and Sweet-makers, Hemp and Flax-dressers, Printing-houses, Coopers, Cabinet-makers, Coach-makers, Malt-houses, Bakers, Ship-chandlers, Boat-builders, Rope-makers, Sugar-refiners, Distillers, Chymists, Varnish-makers, Turpentine-works, Theatres, and all Mills and Machinery, are deemed extra-hazardous, and the rate upon such risks will be proportionably increased.

Ships in port, and their cargoes; ships building or repairing; also barges, and other small craft, with goods on board, may be insured against fire, at 75 cents for one year—45 cents for six months, and 37 1/2 cents for three months per 100 dollars.

Barns, Stables, Hay and grain contained in them, or in stacks or racks, and live stock, will be insured at such premium as may be agreed on.

The rates on buildings, (and on property contained in them) depend so much on the materials of which they are constructed, the purposes for which they are used, and their situation with respect to other buildings that may be deemed hazardous, that particular attention is requested to these circumstances in the orders for insurance.

In cases requiring a Surveyor's report, or plan of the buildings, where there are several, showing their situation with respect to each other and to other buildings, such survey or plan must be furnished by the Assured, or at his expense; but, where a clear description of the property can be given, of which the Agent must be the judge, they may be dispensed with. The Assured is subject to no charge of expense in this Office, except 50 cents for the Policy.

In stating the sums for which insurance may be required on any property, it should be recollecting that indemnity only is the object of insurance against Fire, and that Loss, or expected profit or advantage, beyond a just estimate of the value of the property destroyed, is against the principles of the contract.

Orders left at the Office of the company, in Second-street, will be attended to. DAVID STEWART, Agent for the Phoenix Assurance Company of London.

The Phoenix Company having Agents in Philadelphia, New-York, Charleston, Savannah, and New Orleans, persons having property in those Places, are referred to the res, ecive Agents.

The regular and necessary insertion of our numerous advertising favors prevents the editor, at this season, from furnishing his readers with as much other matter as he could wish; but to aid in convincing his gratitude for the distinguished support with which the American is honored, he is determined to issue extra sheets on all occasions when the mails furnish articles of even secondary importance. Today, whether the contents of the mails are important or not, we intend presenting our patrons with a Supplement.

A Blacksmith's communication, does not, in our opinion, seem calculated to produce any possible good; and we are not willing to occupy space unprofitably or unnecessarily; but if a Blacksmith should wish his views for the formation of something of more utility, we will freely aid in exhibiting it to view.
