" Last evening an open boat came in express, with a letter from the commandant of Coro, dated 14th inst. I have been favored with the following extract from it.

Trom various paragraphs in our late Logion papers, it would seem that serious dissentions exist both, among the highest officers of Prance and among the members of the British administration. Respicting the former the Moraing Post. of the 20th of July, says - It was yesterday asserteti, in very, well informed circles, that accounts, had been received at the office of due of the principal sicreturies of state, that armptums of very see rious discontents. smong the highest authoritics liad just booken out at Paris No less, K is said, then thirty, six or thirty-acven generals and senators have sent. in their a taignation s, among . whom are four marshala in the empire. Brtract of a letter from the Captain of an American vessel to his friend in Norfolk duted London, July 20.

" I expect I shall get away by the 10th of August, and it is probable Mr. Monroe may come with me; he wishes to do so, and thinks he will, if Mr. Fox gets so well as to be able to transact business; the recovery of Mr. Fox is very leaking. uncertain. I said nothing to Mr. Monroe on rublic business, and from his expressing a wish & an expectation of returning with me, I conclude that he apprehends no difficulties to detain hun. The opinion here is, that all matters of difference between this country and ours will be amicably adjusted. The merchants do not appear to apprehend any rupture, though some few declined shipping goods for their correspondents in America, but they may have had other reasons, than the fear of a rupture. I am no politician but I see or hear nothing that gives me reason to auppose ther e will not be an amicable adjustment of differences.
