February 3 This day-is finished, AN ADDITION OF 6000 Spelling Bocks, From the 4th and last English edition.

BY LINDLEY MURRAY: Author of English Grammer, Introduction to English Grammar, English Reader, Exercises, &c. &c.

The above work is comprehended under THREE general divisions. One of the principal objects of the FIRST PART, is, to teach an accurate pronunciation of the elementary sounds, &r. The SECOND PART of the work affords the

learner considerable aid in pronunciation, as well as in orthography. The words of two sallables are not only classed in chapters, accorning to their accest, but they are arranged in sections, adapted to the scumis of vowe's and dipthongs, whether short, long, middle or broad.

The THIRD PART consists of words less familiar to children than those of the proceding ports; of rules for sp. lling and pronunciation; and of miscelizations chapters, calculated to give the learner a radical knowledge, and circreified views of the suiject.

The tessons for spelling, in every section, are illustrated by short apprepriate reading lessons. The orthography of Johnson, and the propurciation i Walker have necesshipted in Murray's Spelling Book-and it is presumed they are authorities which few persons will be inclined to dispute.

Also just received. 2000 copies of a N w Spelling Book, called THE PHILADPLPHIA DILWORTH'S SPEL-LING FOCK, IMPROVED.

The present edition being on the same plan of a late Glasgow publication (with considerable in provements) is confidertly recommended to the serious attention of teachers, parents and grandians.
