Insurances upon Lives

PELICAN LIFE INSURANCE COMPANY, OF LONDON.

HE Pelican Life Insurance Company, of London, was established in the year 1797, by a numerous grid respectable proprietery, upon an extensive capital, vested in the public funds, with the additional responsibility of every individual propriet r. The board of directors, in consequence of repeated applications on the subject, having determined to extend their engagements to the continent of America, deem it proper briefly to suggest to the minds of the public, the numerous and important benefits resulting from such an institution to every rank and class of society.

Persons in the receipt of income arisine from estates dependent upon life-profits in business-offices, civil or military-by the Tearly payment of a moderate premium, may secure at their death an adequate provision for their familie, relations, or friends.-Fines payable on leases renewable at the death of particular persons, may be provided for by insuring the lives of such persons. Insurance affords the means of reimbursement to those · who advance money opon life-annuities, and in many cases furnishes ample security for the loan of money. Persons entitled to property in expectancy or reversion, or upon attaining a given age, may secure an enquivalent, in case their interests should be affected by premature death. In a variety of other instances, and most peculiarly as applicable to persons engaged in commercial pursuits, or in the enjoyment of casual income, this valuable pre caution will establish a resource to which fa milies may look with confidence and security, and by which the distresses too often attendant upon human life, may be alleviated or effectually prevented.

The rates of premium for such insurances will be rendered as moderate as possible, and in every instance proportioned to the age, beauth, and other circumstances of the life as.

sered. The terror will be midde known on application at the Phoenix Fire Office, in Second. street.

This day is finished, AN ADDITION OF 6000 Spelling Books,

From the 4th and last English edition. BY LINDLEY MURRAY: Author of English Grammar, Introduction to English Grammar, English Reader, Exer-

cises, &c. &c. The above work is comprehended under TEREE general divisions. One of the principal objects of the FIRST PART, is, to teach an accurate pronunciation of the elementary

sounds, &c. The SECOND PART of the work affords the learner considerable aid in pronunciation, as well as in orthography. The words of two syllables are not only classed in chapters, according to their accent, but they are arranged in sections, adapted to the sounds of vowels and dipthongs, whether short, long, middle or broad.

The THIRD PART consists of words less familiar to children than those of the preceding parts; of rules for spelling and pronunciation; and of miscellancous chapters, calculated to give the learner a radical knowledge, and diversified views of the subject.

The lessons for spelling, in every section, are illustrated by short appropriate reading lessons. The orthography of Johnson, and the . pronunciation of Walker have been adopted in Murray's Spelling Book-and it is presumed they are authorities which few persons will be inclined to dispute. Also just received,

2000 copies of a New Spelling Book, called THE PHILADELPHIA DILWORTH'S SPEL-LING BOOK, IMPROVED. The present edition being on the same plan

of a late Glasgow publication (with considerable improvements) is confidently recommended to the serious attention of teachers, parents and guardians. On Hand,
