OFFERS his services to the inhabitants of Baltimore and its vicinity in every branch of his profession, particularly in restoring the Teeth to their natural elegance without injuring their enamel, by cleansing them from that corrosive substance called Tarar, which adheres to them. it being of a yellow or black appearance, producing Scurvy, causing an offensive breath, decaying of the Teeth, or a wasting of the Gums and Boney process of the jaw, till they drop out.

Persons unto whom nature has denied the satisfaction of lasting natural Teeth may have their loss supplied by artificial ones, set with such nicety and beauty, that they cannot be distinguished from natural, and of materials that will not change to an unnatural colour. Hollow ones he plugs so as to prevent them. from being painful or further decaying for many years, and reinstates those with the Gums that are much depreciated by carelessness or corroding medicines Likewise extracts such as are too far gone to save.

CERTIFICATE. Ma. LE TELLIER is possessed of unexceptionable addities in the line of his profession, and is authorised by me to use the Patent Perpendicular Extracting Instruments in all places where the right is not aisposed of

The above work is comprehended under THREE general divisions. One of the principal objects of the FIRST PART, is, to teach an accurate pronunciation of the elementary

The THIRD PART consists of words less 'amiliar to children than those of the precedmg parts; of rules for spelling and pronunciation; and of miscellaneous chapters, calculated to give the learner a radical knowledge, and diversified views of the subject.

The lessons for spelling, in every section, are illustrated by short apprepriate reading lessons. The orthography of Johnson, and the pronunciation of Walker Lave been adopted in Murray's Spelling Book-and it is presumed they are authorities which few persons will be inclined to dispute.
