From the Carolina Weekly Mellenger. Good food for Milch Cours.

Beat up in a mortar dry Corn Cobs; pour boiling water over them, or boil them in a pot; flir them frequently when boiling; and when cold, give it to your cows, which is nearly as good-as boiled peafe for milch cows, and certainly a very economical food. The experience which I have had of this cheap food, induces me to recommend it to my brother planters. A PLANTER.
