Buck & Arndt's NEWLY INVENTED PATENT Washing Machine.

THE Subscribers have obtained a Patent from the United States, for the exclusive right of using and vending their newly invented WASHING MACHINE, and they now offer the rights for Towns, Counties or States for sale on moderate terms.
The Machine is altogether superior to any other ever invented to facilitate the necessary and laborious exercise of washing. A child 13 years old can wash in two hours, as much as a woman in the usual manner can in a day. Not half the soap is required, and no injury is done to the clothes.
The said Machine has now been in use in different parts of the United States for twelve months past, and experience has fully proved that clothes are not more injured by its operations than by the common method of washing. The Machine and its method of working, together with clothing washed by it, may be seen at No. 49, Bond-street, Fell's Point.
