PREVENTING DISEASES."

Founded principally on an attention to Air
and Climate, Drink, Food, Sleep, Exercise,
Clothing, Passions of the Mind, and Reten-
tion of Excretions.—By SHADRACK RICKETSON,
Physician in New-York.

RECOMMENDATIONS.

We, the subscribers, having examined a
Treatise on the "Means of preserving Health
and preventing Diseases," composed by Doctor
Shadrack Ricketson of this city, embrace,
with pleasure, the present opportunity of giving
it our decided and public approbation. The
style of the work is performed in so plain and
intelligible a manner that it may be readily
comprehended by every person of ordinary in-
formation; the principles inculcated are uni-
formly supported by well adapted quotations
from the best authors on the subject, forming
in the whole a collection of facts and opinions
well worthy the attention of every class of society.

SIR,
I have perused the work you have put into
my hands, relative to the "Means of preserv-
ing Health and preventing Diseases."

It appears to me to be arranged in a perspi-
cuous manner, and to contain principles which
will receive general approbation.

You have also very judiciously availed your-
self of the observations of some of the ablest
writers of the present day, which will give an
additional value to your work, especially with
those who may not have access to the originals.
Accept, sir, my best wishes for the success
of your undertaking.

Your humble servant,
DAVID HOSACK.

Dr. Ricketson.

New York, September 1st, 1866.

"We hope this publication will have the
good effect of carrying the valuable cautions and
precepts which it contains into many places,
and recommending them to the attention of
many families and persons whom otherwise
they might never have reached.

"This benefit, together with that of recalling
to the minds of many who are too apt to forget
the salutary advice it offers, will, we are con-
fident, afford to the benevolent and judicious
author, a compensation for all the labor he has
bestowed in preparing it for the use of the
public."

Med. Repository and Review of American
publications on Med. Surgery, and the auxiliary
branches of science, for August, September,
and October 1866.—By Doctors Mitchell and
Miller.

Similar recommendations highly approving
the foregoing publication, have been received
from Dr. Ramsay, of Charleston, and Dr. B.
Waterhouse, of Cambridge.

We, the subscribers, having been favored
with the perusal of a book composed by Doctor
Ricketson, of New-York, entitled "Means of
preserving Health and preventing Diseases,"
do, with much pleasure, give it the sanction of
our approbation, and cheerfully co-operate with
our respectable brethren of the Faculty in other
places, in recommending it as a valuable and
useful guide to health, and containing direc-
tions well calculated to prevent or mitigate
diseases; and therefore worthy the attention
of every family and individual.

We confidently hope that the merit of this
little American work will be duly appreciated,
and that thereby its benevolent and judicious
author will be amply compensated for his labor
and good intentions.

Just Published,

And for sale at the Baltimore Bookstore, by
SAMUEL BUTLER,
A NEW WORK,

ENTITLED

Geographical Compilation,

For the use of Schools:

BEING an accurate description of all the
Empires, Kingdoms, Republics and States
of the known world, with an account of their
population, government, religion, manners,
literature, universities, history, civil divisions,
ecclesiastical hierarchy, principal cities, with
an account of their importance, remarkable
monuments, illustrious citizens, commerce and
population, &c.

The whole arranged in a catechetical form,
compiled from the best American, English and
French authors.

By D. L. C.

Teacher of Geography.

This work is executed on a plan entirely
new in America; TOPOGRAPHY (or the de-
scription of the provinces and towns that
compose a nation or country) constitutes one
of the most essential parts of it, contrary to
the custom which has prevailed in almost all
the books of Geography that have appeared in
the United States.

In this work, is presented to the public an
entertaining account of the Chinese empire,
new description of France according to the
recent division into departments compar'd
with that into provinces, as likewise of Bel-
gium, Savoy, Piedmont and the other countries
that have been incorporated into the French
empire; a detailed and accurate account of the
various states of Switzerland, Italy & Germany
according to the latest treaties of peace, viz. of
Campo Formio, Rastadt, Luneville, Amien-
and Presburg; an account of Poland accord-
ing to the division of 1793; a satisfactory
account of the British Isles; a long and
accurate description of the United States in
general, and of each state and territory in
particular, likewise of their districts, counties,
cities, towns and villages, &c.—Lastly a
lengthy description of the Spanish possessions
in America according to the last regulation as
the cabinet of Madrid; likewise a description
of the ancient tribes of Israel, of Judaea or
Palestine under the Romans, of ancient Greece,
and the divisions of ancient Italy, Gaul, Spain,
Britain, Illyricum, Thrace, Asia Minor and
Syria, with several other new articles which
will certainly be highly interesting.

This work is printed in a handsome type,
on elegant paper, neatly bound and lettered in
two volumes, 12 mo.—Price 2 Dollars and 50
Cents.

This compilation has been approved, and
subscribed to by the President of the United
States, by the Secretary of State, by the Di-
rectors of the College Union at Georgetown and
of St. Mary's in Baltimore, in which last
institution as likewise in the Ladies' Semina-
ries, of Mrs. La Combe and of Mrs. Baccan-
ois in Baltimore, of Mrs. Rivard and Mrs.
Grelaud in Philadelphia, and of Miss De St.
Memin in Burlington New-Jersey, it has been
adopted. It has also been subscribed to by the
greatest part of the most respectable citizens
of Baltimore, Philadelphia, New-York, and
of the state of New-Jersey. This makes the
author entertain the flattering prospect of
seeing his labors rewarded by the suffrage of
an enlightened & liberal public, who doubtless
will encourage a work which has already been
sanctioned by so many able personages and for
which no trouble has been spared to render it
at the same time instructive and agreeable.
